Aptitude Test

Summary of the Aptitude test

The students represented with red and purple colour (particularly red) showed a good approach while doing the test. These students tried to utilise the given time appropriately and score +ve marks. This might have happened deliberately or incidentally but clearly shows that they are capable to score even in a time constrained exam. With proper training they could become a successful candidate in a competitive exam. This conclusion is a preliminary one as we have conducted only one test.

Workshop on the prospects of Animation Courses

Make your fantasies a career

‘The future belongs to young people with an education and the imagination to create.’-Barack Obama

The gaming and multimedia industry is a growing phenomenon. Besides computer and console gaming, mobile games are a new part of the gaming sector; mobile gaming is a new market in India. More established jobs for a game designer include working with game developers or game publishing companies. These can range from small- to large-sized companies producing games for other vendors.

We organised a workshop on the prospects of animation courses including Animation Film Making, Gaming & Game Development, Visual Effects, and Graphics in industry in collaboration with *Toonz Animation Academy*, Thiruvananthapuram, one of the top Animation schools in India. Almost 100 students participated in this session conducted on 28th June 2019.
