Report of Add on Course on Journalism and Mass Communication 2016-17

Add on Course on Journalism and Mass Communication

There's an ever-increasing scope for aspirants in the field of Journalism and Mass Communication, considering the growing popularity of mass communication mediums. Its scope in India is wide, if you can do well in your field, you can work with some of the best publishing houses, production houses, news channels, radio channels, or PR firms of the country. Indian university graduates looking to stand out in an increasingly competitive and globalised job market have turned to vocationally and professionally oriented add-on programs in recent years to give them an edge over their peers with a conventional undergraduate degree only. The add-on programs are a result of moves made by the University Grants Commission (UGC), India's university regulator, through the 1990s to vocationalize and professionalise undergraduate education

Upholding this dream, in our college Journalism and Mass- Communication as an add-on course was started to offer certificate and diploma courses to the undergraduate students of the college by the Department of Sociology. We offer both Diploma and certificate courses in the discipline backed by internships, which really make the students not only employable, but also help them to acquire the basic skills needed for the most sought-after professions of the New ages.

Report of Add-On Course

Journalism and Mass – Communication (2016 – 17)

Indian university graduates looking to stand out in an increasingly competitive and globalized job market have turned to vocationally and professionally oriented add-on programs in recent years to give them an edge over their peers with a conventional undergraduate degree only. The add-on programs are a result of moves made by the University Grants Commission (UGC), India's university regulator, through the 1990s to vocationalize and professionalize undergraduate education

Upholding this dream, in our college Journalism and Mass- Communication as an add-on course was started to offer certificate and diploma course to the undergraduate students of the college. This course in its initial years till 2011 was sponsored by UGC, now it's been run by the fees collected from students. The certificate was issued by the Mahatma Gandhi University, Kottayam as like degree certificate. This course aims at increasing their academic competency by equipping them with necessary skills to the future job market.

After pursuing a course(certificate/diploma course) in mass communication, one can work for various newspapers, television channels, magazines, radio stations as well as films. Apart from this, one can also make a career in advertising agencies, PR companies and event management firms, radio jockey, screen writer, newsreader etc. Because of its scope irrespective of stream difference students from various discipline rush to be part of this programme.

The College started the course in 2005 and had made remarkable results with placements. Any interested student who is enrolled in the college as a regular student can join for the add-on course irrespective of their program of studies. The course fee for the add-on and diploma course is rs:1500/ and rs:2000/ respectively.

The course structure is generally divided into two –

- 1: Add-on course (one year of degree course) (90hrs duration)
- 2: Diploma course (second year of degree course) (120hrs duration)

The course follows the academic syllabus approved by the MG University which includes three papers –

- I. Journalism
- II. Communication and Mass Media
- III. History of Journalism and Press Laws

The course also requires the students to complete a compulsory 10 day internships(certificate course) 30 days internship(diploma course) in any of the mass media. Fortunately our students got admitted as interns in various prestigious leading media's viz; Malayala Manorama, Mathrubhumi, Mangalam, Deepika, The Indian Express, Press Clubs, etc. This have made the students to explore and engage in different areas of the media field and to give them an insight about the job. A Notable number of students have also received job offers based on this course.

The course is delivered by various eminent external faculties (media persons), mainly by Mr. Raju Anicadu, (Surya TV, reporter) and Dr. Sathyasheelan (Mangalam, reporter). As per the demand of students generally, the courses are offered in the afternoon and evening hours when regular college teaching is over. Admission is open to all.

As per the demand of students

No. of students enrolled during this year

- Add on certificate course – 45

As the name suggests of this course, it allow students to supplement degree programs with shorter, practical and industry-focused certificate and diploma programs. Academia agrees that traditional education has to be supplemented with skill-based education to enhance the employability of graduates, it's so true of add-on courses as experiences sites.

Add on Course - Electronic and Electrical Equipment Maintenance

Electrical maintenance is the upkeep and preservation of equipment and systems that supply electricity to a residential, industrial or commercial building. It is the process of electrical systems inspection, testing, monitoring and replacing all electrical parts as required, using hand tools, thermal imaging, computerised programs and special measurement devices, to keep systems and machines working efficiently and safely. The department of Physics offers an add on course on Electronic and Electrical Equipment Maintenance for the graduate students. The course equips the students with practical knowledge of how to do the small Electronic and Electrical Equipment Maintenance work at their homes.

Report 2016-17

Add-on course on Electronic and Electrical Equipment Maintenance

Electrical and Electronic equipment maintenance add-on course is given by department of Physics, Bishop Chulaparambil Memorial College, Kottayam. This course is intended for those interested in learning electronics and about electrical devices. This comprehensive course helps in learning and dealing professionally with electronic components and electric device maintenance.

During the academic year 2016-17, ten students who did 'electrical and electronic equipment maintenance' one year certificate course during previous year continued with the same add-on course in second year as the diploma course. The add-on diploma course is 90 hour course. The first module was power supply and stabilizers, second module was illumination and inverters and third module includes computer hardware and maintenance. The course included theoretical and practical periods. The classes started in August 2016, which were taken usually after regular class hours and Saturdays. The 90+ hours of the course finished with practical and theoretical examination by February 2017. The classes were handled by Mr. Binto Binoy and Ms. Sonu Ann John, then guest lectures of the department. The classes were interactive and interesting.

The course was very useful for the students to understand the working and troubleshooting of home power supply, stabilizers and inverters. This course also developed the ability in students to understand computer hardware and its maintenance.

CERTIFICATE COURSE IN BANKING AND FINANCE 2016-17

Banking is the backbone of every economy. The Reserve bank of India has recently issued a new banking license and opened a small finance and payments bank. This has opened up career opportunities in the banking sector. The banking sector alone will have around 20 lakh job opportunities within the next 5 years. Banking and finance industry will require professionally qualified manpower endowed with banking and finance knowledge and skills together with technology-familiarity, customer-orientation and hands-on application skills who can be assigned to various desks/jobs with minimal training intervention at the bank level. In view of the job opportunities at present as well as considering the future demand for professionally qualified manpower in the banking and finance sector, and to ensure a steady stream of industry-ready professionals at the entry-level and to equip our students with the necessary theoretical knowledge and practical experience in banking, a certificate course in banking and finance was offered by the Department of Commerce of BCM College. The course commenced its beginning in the year 2016 with a batch of 44 students.

The Course was held between 26-12-2016 and 31.12.2016. Students from all the disciplines were granted entry to the course if they qualified in the aptitude test conducted by the Department. Students from disciplines other than commerce were offered this course to make them familiarized with the banking terminologies and operational aspects in the bank. But Finance graduates holding a key banking certification enjoy better job prospects, high earning power, more specialized industry knowledge, and a large number of opportunities. Sessions were handled by all the teachers in the department of commerce. Introduction to banking, terminologies used in banks, nationalization, history of banks, innovations and reforms in banking, NPA, NBA, BASEL norms, EFT, NEFT, RTGS, SWIFT and the meaning, definition and relationship between Banker and customer were dealt with in detail. Students have been introduced to digital banking also. Students were given the assignment to collect the forms for at least 5 instruments used in a bank. Mr Jipin V Jimmy who has hands-on experience as a banker was the coordinator for the certificate course on banking. His experience as a banker and the perks he received as a banker was shared with the students to motivate students to channel their dreams. This course not only provides learners with the knowledge of operational aspects of banking and finance but also builds on their managerial and technical skills. An assessment was conducted at the end of the training to evaluate the students and the students performed well in the test.

CERTIFICATE COURSE ON OYSTER MUSHROOM CULTIVATION

The Department of Botany of Bishop Chulaparambil Memorial College conducted a certificate course program on oyster mushroom cultivation under the guidance of Dr. Peter K Mani (HOD). The basic principle underlying in mushroom cultivation is that by the use of a biological tool (mushroom), we can convert the unusable organic substrates like paddy straw into usable form (edible basidiocarps). At the end of the course mushrooms were harvested and various added products like Mushroom Sandwich were prepared and supplied to the Faculty members, Non-Teaching staff & Students. After completing this course several of our participants grow mushrooms for their own dietary purposes.
