Summary Report of Add on course on Travel and Tourism 2017-2018

ADD ON COURSE -TRAVEL AND TOURISM
OFFERED BY THE DEPARTMENT OF ECONOMICS
SUMMARY REPORT 2017-2018

The Travel and Tourism Add-On Course offered by the Department of Economics equip the students with management skills and professionalism to suit the requirements of the tourism industry and the service sector. The travel and tourism industry in India is currently experiencing unprecedented growth. The industry is one of India's largest and most profitable industries and contributes significantly to the foreign exchange earned. Students have endless career opportunities in this fast-growing industry of travel and tourism. Candidates looking to pursue their career in the industry can work for travel agencies, government tourism departments, tour operations, immigration and customs services, airlines, hotels, and the list continues.

The course consists of 4 credits, and it integrates academic knowledge and applications in the travel and tourism industry. The syllabus consists of four units that deal with Meaning and Nature of Tourism, History of Travel, Tourism in India and India as a Destination, respectively.

The classes commenced on July 3rd 2017. The course was completed by taking sixty-two sessions, each with one hour. There were 53 students in the batch, all of which appeared for the exam, and there was a 100 per cent pass. The teacher in charge of the academic session was Ms Lekshmi Priya H of Akbar Academy of Airline Studies.

Report of Add on Course on Journalism and Mass Communication 2017-18

Add on Course on Journalism and Mass Communication

In the world of today, media has become as necessary as food and clothing. It has played a significant role in strengthening society. There's an ever-increasing scope for aspirants in the field of Journalism and Mass Communication. Its scope in India is wide, if you can do well in your field, you can work with some of the best publishing houses, production houses, news channels, radio channels, or PR firms of the country. Indian university graduates looking to stand out in an increasingly competitive and globalised job market have turned to vocationally and professionally oriented add-on programs in recent years to give them an edge over their peers with a conventional undergraduate degree only.

Upholding this dream, in our college Journalism and Mass- Communication as an add-on course was started to offer certificate and diploma courses to the undergraduate students of the college by the Department of Sociology. We offer both Diploma and certificate courses in the discipline backed by internships, which really make the students not only employable, but also help them to acquire the basic skills needed for the most sought-after professions of the new ages. Seventeen students completed this course during the academic year 2017-18.

Summary Report of Add on course Journalism and Mass Communication 2017-2018

Add-On Course Report

Journalism and Mass-Communication (2017-18)

Add-On courses not only assist in enhancing grades but also assist in toying with the idea of a particular career path. Add-on courses provide the essential skill set that one needs to reach their goal faster in an efficient manner.

Journalism and mass communication as a certificate course offered by the college for undergraduate students by the department of Sociology. The course aims at educating the college students about the journalism and mass media field which have become one of the major fields that is entrusted to engage in ensuring common citizens rights through bringing up their problems to light.

The college started the add-on course in the year 2005 with the approval and funding of UGC as part of making degree course more professional and job oriented. This new step by the academic authority made many students to increase their qualifications and increase their chances of getting a job in this rush hour. The college allows any person enrolled as a full-time student to join the course irrespective of their course of study. The course is currently carried on under the Dept. of Sociology.

The certificate course follows the academic syllabus as per the University which includes three papers.,

- i. Journalism
- ii. Communication and Mass-media
- iii. History of Journalism and Press Laws

The course also includes a mandatory 10 days internship with any of the medias. This have made an opportunity for the students to engage in media related jobs in some of the leading medias like Press Clubs, Malayala Manorama, Mathrubhumi, Mangalam, Red FM etc. The course is taught by reputed external faculties and majorly by Mr. Raju Anicadu (reporter, Surya TV).The course is been conducted in alternative days either as morning session(extra class) or afternoon session (stay-back hour)in room 217 classroom. External experts showed keen interest in addressing the curiosity of our students by taking them for pre- media visits prior to their real structured inter-ship.

The college also offers diploma course in journalism and mass-communication for students who successfully complete the certificate course of the same. It is also notable that a number of students have received job offers on the basis of this course. It has indeed been very helpful for the students as they can complete and additional course simultaneously with their undergraduate course. Also, since the certificates are directly given by the University, it is easily accepted in all places.

Number of students enrolled for add-on course (certificate course) – 37.

We feel so happy and filled with gratitude as we had been successful to attain the real intension of the course by moulding the students with employable skills. Thus, this job-oriented course enriched the students to face the emerging challenges in the job market with their increased academic profile.

Report of Certificate course on Open Office 2018-19

Certificate course on Open Office

The certificate course in Open Office is conducted in collaboration with the Department of Zoology and B.C.M computer centre. The course dealt with basics of open office which was then widely used by our students for their project work as well as presentation. The course included the basics of writer, cale, impress and math. The students were also taught to use various web browsers.

Thirty three students were enrolled in the programme. Thirty two of them completed the course. The students were able to do all their dissertation work as well as presentations and seminars on their own by using the computers at the B.C.M computer centre. Earlier the students used to depend on neighbouring computer centres for their assignments and dissertations. Certificates will be issued for students with 80% attendance.

Summary Report of Certificate course on Open office 2018-19

BISHOP CHULAPARAMBIL MEMORIAL COLLEGE, KOTTAYAM

DEPARTMENT OF ZOOLOGY

2018-2019

Certificate Course: OpenOffice.

The certificate course in Open Office is conducted in collaboration with the Department of Zoology and B.C.M computer centre.

OpenOffice forms an ideal teaching platform for core computer literacy skills, without tying students to commercial products. The free software license means students can be given copies of software to use at home - perfectly legally - a useful 'added value'. For IT students, OpenOffice's component based software is also an ideal platform for developing IT skills and understanding real-life software engineering.

The Word processing, spreadsheets, presentations, graphics, databases, and more are all included in the open-source office software suite. It is accessible in a variety of languages and runs on most modern PCs. It can read and write files from other common office software packages and stores all of your data in an international open standard format. It can be downloaded and used for any purpose entirely free of charge.

Thirty two students were enrolled in the programme. Thirty two of them completed the course. The students were able to do all their dissertation work as well as presentations and seminars by their own by using the computers at the B.C.M computer centre. Earlier the students used to depend on neighboring computer centres for their assignments and dissertations.

Add on Course - Electronic and Electrical Equipment Maintenance

Electrical maintenance is the upkeep and preservation of equipment and systems that supply electricity to a residential, industrial or commercial building. It is the process of electrical systems inspection, testing, monitoring and replacing all electrical parts as required, using hand tools, thermal imaging, computerised programs and special measurement devices, to keep systems and machines working efficiently and safely. The department of Physics offers an add on course on Electronic and Electrical Equipment Maintenance for the graduate students. The course equips the students with practical knowledge of how to do the small Electronic and Electrical Equipment Maintenance work at their homes.

SYLLABUS

Electrical and Electronic equipment Maintenance

Detailed Syllabus

First year (Certificate course)

Paper 1 Fundamentals of Electrical and Electronics

1. Electric Theory

Ohms law, Kirchoff's Laws-current law and voltage law

2. Resistors

General information: Symbol, colour code, Types, Variable resistors and measurement of resistance using multimeter

3. Inductors

General information: Symbol, Types, Chokes Inductance measurement

4. Transformers

General information: Principle, Types, and Design of main transformer

5. Capacitors

General information: Symbols, Colour codes, Types - Fixed and variable capacitors, measurement of capacitance

6. Basic Electronics

Diodes, Transistors, FET, UJT, MOSFET, IC, Bread Board

7. Measuring Devices

Thermometer, Barometer, Multimeter, LCR meter, Voltmeter, Ammeter, Galvanometer, Signal generator, CRO

Practicals

Identification of terminals of active and passive components

Testing of components

Soldering Practice

Paper II House wiring and Installation of equipments

1. Electrical Components- Switches, Cables and Electrical fittings Bulbs, Tubes, Plugs- testing of connection. Single phase and three-phase wiring, Different types of loads, Earthing Method
2. Power consumption General information, Methods to reduce power consumption – Bulbs and Tubes

Practicals

1. House hold single-phase wiring
2. Illumination Techniques-Domestic Applications

Paper III Assembling & Maintenance of Household Electrical Equipments

Assembling and Servicing

Power supply Adapters, Battery Chargers, Regulated Power Supply, Electronic Choke- Tube fittings

Household equipment Maintenance- Iron Box, heater, mixer, grinder and fan

Practicals

1. Computers-Familiarization of input and output devices and connections
2. Maintenance of Iron Box, heater, mixer, grinder and fan

On The Job Training

Second year (Diploma Course)

Paper I Power supply and Stabilizers

- 1 Power supply- Rectifiers, filters, and regulators-different types
SMPS
Uninterrupted power supply (UPS)- different types, Charger- Battery,
2. Various Types of Stabilizers, UPS and its working

Practicals

- 1.Assembling and servicing of different types of power supplies

Paper II Illumination and Inverters

1. Different Types of Lamps –Filament Lamp, Fluorescent Lamp, Sodium Lamp, Mercury Lamp, UV and IR Lamps, Halogen Lamps , CFL Lamps-Their domestic and industrial applications. Basic Principle and working of lux meters. Modern Methods of lighting-Stages, rooms and auditorium. Light Sensors.
2. Various Types of Inverters- working.

Practical

Maintenance - Inverters

Paper III Computer Hardware and Maintenance.

1. History of Computers-Architecture of Computers-Characteristics-Speed, Storage, Accuracy and Versatility.
2. Hardware-Peripheral Devices-Input Devices- –Output Devices- Audio Out Put Devices- Storage Devices-Primary storages-RAM, SRAM, DRAM, ROMs-Secondary Storage Devices-Magnetic Tapes, Magnetic Disks, Floppy Disks, Hard Disks, Optical Disks, CDs and DVDs-Bubble Memory, Memory Button, Memory Cards, Smart Cards.

Practical.

1. Computer Assembling
2. Software Installations.

On The Job Training

Third Year (Advanced Diploma Course)

Paper I Embedded Systems

Microprocessors and microcontrollers
PIC- Architecture- different versions, Modules, Instruction set.

Practicals
Simulation

Paper II Protection circuits

Different types of protections- over voltage, under voltage, over load, short circuit, Relays, Indicators

Practicals
Assembling different types of protection circuits

Paper III Television Engineering

TV receiver- different blocks, power supply Ics used in TV receivers
Operation Principles of picture tube
Antennas, Boosters

Practicals
Servicing of Television

Summary Report of Add on course on Electronic and Electrical Equipment Maintenance 2017-2018

Report 2017-18

Add-on course on Electronic and Electrical Equipment Maintenance

The certificate course on Electronic and Electrical Equipment Maintenance given by the department of Physics aims to introduce the students to the working of electronic products used in daily life and to the repair and maintenance of these products. Electronics being popular almost everywhere, there is a huge potential for growth in this sector as a service technician for electronic goods. As an electronics technician one may be able to repair any kind of electronic equipment or device. Students are provided hands-on training on a variety of aspects about the field of electric and electronics devices that help them establish in the field of household equipment maintenance.

During the academic year 2017-18 two batches of students of UG Physics program joined the add-on course on electrical and electronic equipment maintenance. Batch A had 26 students. Mr. Binto Binoy and Ms. Athira Maria Johnson took 90 contact classes, including theory and practicals for batch A between June- November 2017. Batch B had 23 students. Dr. Monisha P J. and Ms. Athira Maria Johnson took more than 90 contact hours including theory and practical sessions during July 2017- Dec 2017. All students completed the course meritoriously.

The course outcome includes fundamentals of electrical and electronics, house wiring and installation of equipments and assembling & maintenance of household electrical equipments. At the end of the course, the students are able to identify the fault, repair and do maintenance of electric household equipments.

Report 2017-18

Add-on course on Computer Applications

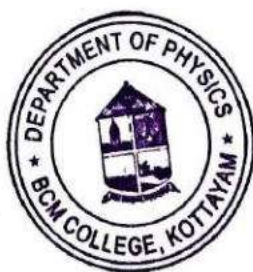

Add-on course on Computer Application is given by department of Physics, Bishop Chulaparambil Memorial College, Kottayam. As we live in a digital age, learning the basics of computer science has become the need of hour in all fields especially in the field of education. The uses of computers and the internet are growing day by day. Those students who are keen to know the basics of computers, the internet in online studies and applications of Microsoft offices from any department can join this course

During the academic year 2017-18, twenty students of different UG programs joined the certificate course on Computer Application. Ms. Regi Jose took more than 90 contact classes during the period September 2017 – February 2018. Classes were mainly taken in the morning from 8:30 to 9:30 am. Both theoretical and practical sessions were conducted. The course syllabus includes six modules containing the fundamental knowledge about computers, operating systems, and the usage of Microsoft office and the Internet. Twenty students completed the course meritoriously thereby achieving the aim of this course.

All the classes taken were interesting and got positive feedback from students. The course made students familiar with the usage of computer and its applications. Now ICT enabled teaching practices are on progress which includes replacing ordinary chalkboards with interactive digital whiteboards and using other tools like desktops, projectors and flipped classrooms. This certificate course on computer applications was very useful and has helped the students to learn with the help of ICT.

Certificate Course on Child Rights and Protection Systems 2017-18

An additional knowledge regarding the safety and rules regarding children was given to the students through this certificate course. It also focused on understanding the child and the interest of the child in almost all the aspects of life. The laws and legislations related to children, the various schemes, and also the various aspects of a child in their holistic development were discussed in this certificate course. Thus the course was very fruitful and helpful for the trainee Social Workers. This course enabled the TSWs to have an insight about children and their problems. Making the trainee social workers aware about child protection and related laws and rights along with the current amendments in the laws were the goal of this certificate course.

DEPARTMENT OF ECONOMICS
CERTIFICATE COURSE REPORT 2017-18
ENTREPRENEURSHIP DEVELOPMENT

Department of Economics offered a certificate course on titled Entrepreneurship Development for the academic year 2017-18. The course had a vast syllabus covering different areas relating to entrepreneurship and development. Since the course was open to students from different departments, the course has been structured by incorporating all the important aspects of entrepreneurship. The course deals with varied aspects ranging from the basic definition of entrepreneurship to the skills that are required to be a successful entrepreneur. In total the course had Five modules. In this course along with classroom teaching, the instructors tried to include various programmes and training sessions for skill enhancement. The main aim of the session was to impart the necessary knowledge and encourage the students to participate in the development process of the economy.

The basic role of an entrepreneur is to locate and exploit opportunities. In this process, the entrepreneur converts/uses the idle resources such as land, capital and labour in the production process. Through this, the national income and wealth can be generated in the form of goods and services, which helps develop an economy. This creates employment opportunities and improves the per capita income as well.

In the first module, the topics dealt with the role and challenges that an entrepreneur may face in the process of economic development. The following modules intended to inculcate some important aspects relating to entrepreneurial competencies, time management, interpersonal skills, etc. The last module majorly focused on including certain small groups into the fold of larger entrepreneurial groups. Under this, we explained how the Kerala

government implemented SHGs and the Kudumbashree programme to help rural women become successful entrepreneurs.

The classes commenced on August 1st, 2017. The course was completed by taking 30 sessions, each with one hour. There were 46 students in the batch, all of which appeared for the exam, and there was 100 percent pass. The teacher in charge of the academic session was Dr Resmi C.P.

Certificate course on Guidance and Counselling for Everyday life

Good conduct is coveted, but sometimes young minds need guidance to polish their personality. Guidance and counselling help to recognize and understand one's talents and abilities, help to develop an optimistic outlook for removal of undesirable traits, it aids to develop resourcefulness and self-direction in adapting to changes in society. Through counselling, students are given advice on how to manage and deal with emotional conflict and personal problems. Proper counselling will help incorporate valuable lessons in their daily life. Some sessions should involve career guidance, where the students are advised on the selection of courses and different career paths. It's important to prepare them for life after education and what to expect in the different fields they might opt for. Keeping this in mind the Department of Sociology conducts a certificate course on Guidance and counselling for the undergraduate students in order to equip them with some basic principles and techniques on guidance. Thirty six students attended this programme and thirty three students passed the exam.

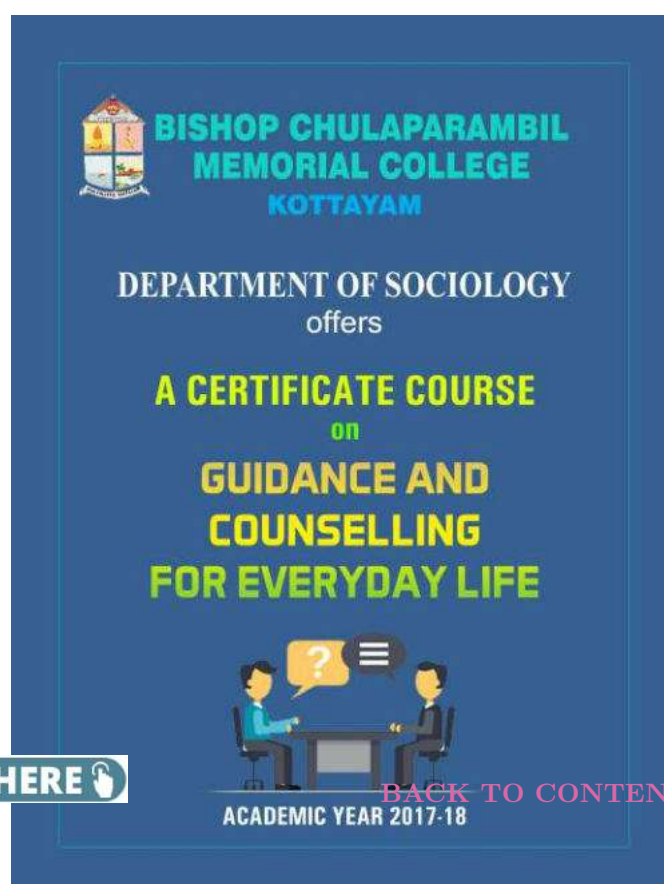

The main objectives of the course are

- 1.To understand principles and concepts on guidance .

Summary Report of Certificate course on Guidance and Counselling 2017- 2018

Report of Certificate Course : Guidance and Counselling for Everyday Life (2017-18)

The Department of Sociology offers a certificate course in guidance and counselling for all students. The aim of this course is to help the students recognize the role of guidance and counselling in mental health and also to introduce them to the scope of the guidance and counselling as a career option. Guidance and counselling have come to play an important role in the field of education. Guidance means to direct or provide assistance to someone who needs help and counselling refer to the professional services provided to an individual who is facing a problem and needs to overcome the problem. The certificate course of guidance and counselling promises career options in both public and private sectors as a school counsellor, mental health counsellor, community counsellor, marriage and family counsellor, etc. Guidance and counselling is becoming a major field that has one of the most respectable and rewarding professions in India.

Interested students who belong to any stream or subject can join this course. There are no other specific requirements other than the completion of 12th board examination.

The syllabus of the course is arranged in such a way that the students could grasp every main concept and idea related to guidance and counselling. The syllabus contains four units: unit I (Concept of guidance) unit II (Career Guidance Work & Mental Health) unit III (Psychometric Methods and Techniques for Guidance and counselling - Quantitative Techniques) and unit IV (Counselling approaches).

Syllabus in detail:

Unit I covers topics such as meaning and principles of guidance, need and importance of guidance, scope of guidance etc.

Unit II covers meaning of work, meaning of compensation, work and leisure, meaning, characteristics and need for mental health etc.

Unit III covers psychological tests, intelligence tests, interest inventories, aptitude test, achievement test etc.

Unit IV covers cognitively oriented counselling approaches, trait and factor oriented counselling approaches, conditions influencing counselling, etc.

The certificate course for this academic year began in the month of September. There are about 30 contact hours and extra classes were taken to provide them with additional information. The classes were taken by trained psychologist Smt. Karthika Elizabeth. A total number of 38 students attended this year's guidance and counselling class.

Students who performed well and successfully completed this course are awarded with certificate. As like any other additional certificates this course's certificate make students to be a step forward to their cherishing goal.

SUMMARY REPORT

A certificate course of 30 hours on Oyster mushroom cultivation was offered by department of Botany, Bishop Chulaparambil Memorial College kottayam during the academic year 2017-2018. There were 55 students who actively participated in the program. Spawns of oyster mushrooms were provided to the students for the cultivation. Our HOD Dr. Peter K Mani lead the classes. A demonstration of mushroom culture was given and the students were guided for different steps of the cultivation. Each student was monitored individually for the best outcome. Mushroom spawns were grown in paddy straw, a waste material. Students were familiarized with different equipments like autoclave in the botany lab during this course. This course successfully completed when some of the participants practiced mushroom cultivation for their own purposes as well as a source of income.

Certificate Course on Soaps and Detergent Chemistry

Bathing soap and washing detergents are kinds of soaps which we use in our daily life. In addition to this, we are using wash powder to remove strong stains on the clothes. The Department of Chemistry offers a one year certificate course on soaps and detergents. This programme is of 30 hours duration comprising 25 hours theory classes and 5 hours hands on experiments session. The course aims at hands-on experience on eco-friendly soap making.

Summary Report of Certificate course on Soaps and Detergent Chemistry 2017-2018

Summary Report of Certificate course -Soaps and Detergents Offered by Department of Chemistry 2017-2018

The use of soaps and detergents has become quite indispensable in our day to day lives. Cleanliness is gaining utmost importance thereby resulting in a number of cleaning products being manufactured on a daily basis. This has led to a constant rise in the number of soap manufacturers in the industry today.

There are quite a variety of soaps and detergents manufactured today. Soaps include beauty soaps, liquid and bar soaps, powder soaps and so forth. With the use of a variety of products by consumers, the soap industry has been growing steadily for the past several years in the country. The business of making soaps is quite profitable as it involves lesser investment. India today is one of the largest producers of soaps in the world. The soap industry in India is at a high growth rate and many new entrants are planning to launch their product in this category. Soap and detergents are easy to manufacture as mixing in the right quantities is the major step. With training on the formula and manufacturing process, you can start manufacturing them at home with no major equipment. Soap and Detergent making business is suitable for entrepreneurs willing to begin with moderate investment.

Soaps and Detergents work with a simple chemistry and it is very easy to manufacture them at home. Keeping this in mind, the Department of Chemistry offers a certificate course in Soaps and Detergents. This programme is of 30 hours duration comprising 25 hours theory classes and 5 hours hands on experiments session. We started it from the academic year 2017-2018. The number of participants during the year 2017-2018 was 23. Ms. Merlin Thomas was the teacher in charge of this course. The course started on 12/11/2017 and ended on 20/3/18 during the academic year 2017-2018.

The course outcome

- To get the students hands-on training in soap and detergent making, it can be a stepping stone to entrepreneurship in the soap and detergent industry.
- To make soaps and detergents without adding any unwanted chemicals.

The attainment of course outcome was evaluated by an assessment test and also the students were asked to make soaps on their own and displayed.

Report of Certificate course on Ornamental Fish Breeding Culture and Management 2017-18

Certificate course on Ornamental Fish Breeding Culture and Management

The major economic importance of Ornamental fisheries has been recognized by several developing countries for employment generation and livelihoods. Ornamental fish breeding culture is a prospective business due to the high demand for these fishes. The increasing demand for aquarium fishes gradually paved the avenue towards global trade of ornamental fishes. Generally, the exotic fish dominate the Indian market and more than 250 varieties have been recorded from the domestic market.

Upholding this demand the Department of Zoology offers a certificate programme on Ornamental fish breeding culture and management for the undergraduate students. The students were taught about the scope of the ornamental fish sector, how they can become entrepreneurs in this area. They have visited various fish breeding centres and farms. They were taught to breed guppy and fighter fish along with the steps in setting up aquarium units. Twenty students participated in this course during 2017-18 and all of them qualified.

Syllabus of Ornamental Fish Breeding Culture and Management

Syllabus of Ornamental Fish Breeding Culture and Management

(Total Hours –30)

Module I: Ornamental fish culture - History of aquarium fishes, current status and prospects of ornamental fish culture in India. Commercial status. (2hrs.)

Module II: Fish keeping as a hobby, occupation and practice. Ornamental fish culture trade in India. Marketing potential, strategies and scope of fish keeping entrepreneurship in India. (3hrs.)

Module III: Fish culture practices in freshwater, brackish water and marine habitats. Different species of fishes used in culture practices. Water management and Health management in aquariums, Tips for ornamental fish farming. Nutrition and feeding. Common fish diseases and their management. Fish breeding techniques. (5hrs.)

Module IV: Setting up of an aquarium. Species selection, Infrastructure requirements, production capacity, marketing potential and strategies, working capital, means of finance, profitability and market. (5hrs.)

Module V: Proposals for the establishment of ornamental fish farming. NABARD'S model bankable projects. Funding agencies, Role of fishery institutes of India for establishing ornamental fish farming. Training facilities ICAR-CIFA technologies for rearing and management of ornamental fishes. (5hrs.)

Field, Institutions, Nursery and aquarium visits (5hrs.)

Setting up of model aquariums (5hrs.)

Certificates will be issued for students with 80% attendance

CERTIFICATE COURSE: ORNAMENTAL FISH BREEDING, CULTURE AND MANAGEMENT

Aquaculture, or ornamental fish culture, is the cultivation of beautiful, colourful fish of a calm nature in enclosed aquatic environments. "Living jewels" is another term for ornamental fish. The aquaculture business relies heavily on ornamental fish production. Aside from being a source of employment, the ornamental fish trade is a foreign exchange earner.

It has an important role in both industrialized and developing economies. The objective of the certificate course in ornamental fish breeding, culture and management was to introduce students to the area of ornamental fish breeding culture practices. Ornamental Fish Breeding, Culture and Management is a course that covers the culture and breeding of freshwater ornamental fishes construction of aquarium tanks, aquarium maintenance, significant ornamental fishes and their breeding, decorative aquatic plants, feed preparation and feeding management, water quality control, and disease management are all covered in detail.

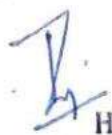

Twenty students of third B.Sc have enrolled and the entire batch of students has completed the course. All students were able set up an aquarium at their home. At the end of the course the students have set up a model aquarium in the Department.

Certificate course on Our Universe: The world around us

A new Certificate course titled 'Our Universe: The World around Us' was introduced by the Department of Physics during the academic year 2017-18. The course is intended for students of any discipline interested in astronomy. The course helped the students to understand the planets and small bodies that inhabit the solar system.

SYLLABUS

Syllabus

No.of contact hours: 30 Hrs

Scope: To help the students to comprehend the Cosmos and its origin and to develop

Prerequisites:- This course is intended mainly for the students of other disciplines. So a secondary level knowledge of mathematics and physics is enough to study this course But an inquisitive mind and curiosity are essential for a student.

Module I Our Universe(6 hours)

Early models of the universe-Geocentric model Ptolemy-Aristotle. Copernican model Sun at the centre. Galileo and his observations. Galaxies-Hubble's classification - Spiral, elliptical & irregular galaxies. Milky way galaxy

Module II Cosmology (6 hours)

Origin of the universe-Big bang theory-expansion of the universe-Hubble's universe. Age of universe. Stellar evolution-birth-red giant- death of a star White dwarf- Chandrasekhar limit, Supernova, neutron star- black hole.

Module III Observational Astronomy (10 hours)

Constellations-zodiacal constellations. Astronomical distance scales-AU. Parsec and light year Stellar Parallax and distance to stars from parallax. Telescopes - Light gathering power, visual angle, angular magnification, Types of telescopes refracting and reflecting-Newtonian and Cassegrain telescopes HST, Radio telescopes. GMRT(India).

Module IV Solar System(8 hours)

The sun-solar atmosphere- Sun spots. Definition of a planet-terrestrial planets & Jovian planets. Comparison of planets. Minor members of solar system- Asteroids, comets, meteors. Universal law of gravitation, Earth's orbital motion-day to day changes-seasonal changes

Text Books:

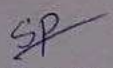

1. Architecture of the Universe, Necla H Apfel Allen Hynek- The Benjamin Cummings publishing company, Inc.
2. Astronomy A beginner's guide to the universe sixth edition(ch-1)-Chaisson McMillan
3. Astronomy: A Self Teaching Guide-Dinah L. Moche
4. The great Universe-G.K Sasidharan-S.Chand

OUR UNIVERSE : THE WORLD AROUND US'
2017-18

A new certificate course titled 'OUR UNIVERSE : THE WORLD AROUND US' was introduced by Physics department during the academic year 2017-18. The course is intended for students of any discipline interested in astronomy. The course helped the students to understand the planets and small bodies that inhabit the solar system. Students learned about how life originated and evolved on earth. The course covered the ideas of our universe, cosmology, observational astronomy and the solar system. The course commenced on 01/07/17. 31 students from various departments attended the course. The course was taught by Dr. Elizabeth V John of physics department.

As part of the course, the department conducted a class on *Observational Astronomy* in association with *Breakthrough Science Society*. The class was very informative. Night sky watching was also arranged under the guidance of Prof. N.Thankachan, Rtd. Prof. RIT, Pampady and Mr.Sasikumar, Amateur Astronomer. Different constellations were introduced and students watched various videos which were really interesting. After the completion of the course an exam was conducted on 02/11/2017. All the students completed the course with high grades.

Certificate Course on Surface Ornamentation Techniques

Surface ornamentation adds immense beauty and enhances the look of a garment. The main idea of fabric decoration is to add an element of interest. The most common materials used for surface ornamentation are mirrors, beads, sequins, threads, wires, buttons, etc. Surface ornamentation is a skill. It has been practised in India since centuries. Every region in India is known for its own style of surface ornamentation. For example, Gujarat and Rajasthan are known for mirror work, Punjab is known for phulkari embroidery and so on. In view of this the Department of Family and Community Science organised a certificate course on Surface ornamentation Techniques.

The brochure cover features a blue-to-purple gradient background. At the top left is the Bishop Chulaparambil Memorial College logo, a shield with a cross and a lamp. To its right, the college name is written in bold white and yellow text. Below this, the course title is prominently displayed in large, bold, yellow and white letters. The author is listed as the Department of Family and Community Science. Three circular images of embroidered flowers are shown in the middle. Below them, the objectives are listed in white text. At the bottom, the academic year is specified.

Syllabus

Objectives

- To teach the variations of basic hand embroidery techniques, surface designing and other ornamentation techniques.
- To introduce them to various traditional embroidery techniques of India.

Module1: Embroidery

2 Hours

-Embroidery tools and techniques, embroidery threads and their classification, selection of threads, needle and cloth, tracing techniques, ironing and finishing of embroidered articles.

Module2: Basic Hand Embroidery

5 Hours

-Two variations of running stitch, back stitch, stem stitch, chain stitch, lazy daisy stitch, buttonhole stitch, feather stitch, herringbone stitch, knot stitch, satin stitch and cross stitch.

Module3: Traditional Embroidery

10 Hours

- Origin, application & colours. Kantha, Chikan, Kasuti, Zardosi (Four variations), Kutch and Mirror work (Two variations).

Module4: Special embellishment techniques

8 Hours

-Ribbon work (2methods), Applique (2 methods), quilting (2 methods), Patch work (2 methods) Smocking - Chinese smocking (2 methods), honey comb, gathered with embroidery, Fabric painting (4 methods), hand, Stencil- dabbing and spraying.

Module5: Dyeing and printing Hours

4

-Advanced tie and dye techniques, batik and block printing. (2methods each)

Module6: Trimmings and decorations Hours

7

-Laces, tassels, tucks (4methods), show buttons, eyelet and cord, bead work, cut work and crocheting.

Related Experiences

- Basic Hand Embroidery :-Prepare samples for running stitch, back stitch, stem stitch, chain stitch ,lazy daisy stitch, buttonhole stitch, feather stitch, herringbone stitch, knot stitch, satin stitch and cross stitch. (Two variations each)

Surface ornamentation Technics
(Family and Community Science)

During academic year 2017-2018, Department of Family and community Science began to provide a certificate course Named "Surface ornamentation Technics". Surface ornamentation is a skill which adds immense beauty and enhances the look of a garment. The main idea of fabric decoration is to add an element of interest. The most common materials used for surface ornamentation are mirrors, beads, sequins, threads, wires, buttons, etc. Surface ornamentation will continue to be the highlight of every garment. Surface Embellishments on garments and apparels will never go out of fashion. So, take inspiration and keep designing.

Thirty Seven Students from various streams were joined in the introduced certificate course and they were enthusiastically and passionately participated in theory and practical sessions as well. The course cover a total of 30 hours and the classes summoned from 01/11/2017 to 10/01/2018. With our curated ornamentation course, students learned to stylish their garments like; crop-tops, jackets, skirts, anarkalis, lehengas, sarees and so much more. This course is perfect for beginners and those who want to improve their designing or stitching abilities. They secured a good score in their exam.

Report of Certificate Course on Fundamentals of Accounting 2017-18

Certificate Course in Fundamentals of Accounting

Accounting is the “language of business.” Financial accounting focuses on the reports that managers generate to provide interested external parties a summary of the firm’s financial position and operations. Managerial accounting focuses on the information and the analytical tools and techniques that help managers and employees make the right business decisions. The department of commerce offered a certificate programme on Fundamentals of Accounting for the graduate students. In this specialisation, students learned the fundamentals of both of these purposes of accounting. More specifically, students understood the financial statements that managers create, and were able to interpret and analyse these statements to assess the financial position of the organisation.

Summary Report of Certificate course on Fundamentals of Accounting 2017-2018

CERTIFICATE COURSE IN ACCOUNTING

Accounting is an emerging field with plenty of opportunities in almost all lines of business. Such a situation arises primarily because, regardless of the size and scale of the business, all organizations are required to keep track of their finances, bills, invoices, receivables and budgets, as well as maintain and issue accounts, all of which require professionally qualified accountants. The Issuance of a new set of Accounting and reporting standards (Ind AS & XBRL) by the Ministry of Corporate Affairs has made the role of Accountant even more significant in the corporate world.

In order to address the need of qualified accountants in the industry, the Department of commerce of BCM College is offering a course for the graduate students from non commerce background. This course is intended to help them develop a basic understanding about accounting and the processes involved in a business transaction. The course began on July 4 2017 and came to a close by 27-09-2017 .

42 students from various subject streams other than commerce joined for this course. They were introduced to journaling, posting in ledger, rectification, Day book preparation, Cash books, account finalization ,trial balance preparation and about Account finalization.

This course is expected to provide better management skills for the manager and career opportunities for the aspirants. After the completion of the certificate course, learners will be able to do the journalizing, posting and finalization of accounts by themselves like a commerce graduate. Learners were asked to prepare projected profit and loss, and balance sheet of an innovative business venture which they plan to establish in future. This assignment was similar to a business plan. An assessment was also conducted to evaluate the performance of the students and all the students cleared the exam conducted.

CERTIFICATE COURSE ON INTRODUCTORY MATHEMATICS FOR COMPETITIVE EXAMS

The Department of Mathematics offers a certificate course in Mathematics for Competitive Exams. This course was aimed to provide a basic mathematical aptitude for students and to make the students attend various competitive exams confidently. By solving previous year question papers of Bank test, SSC exams, PSC exams etc students will get enough confidence to attend maths related questions in competitive exams.

SYLLABUS

ADD ON COURSE DETAILS

ADM01 : - Introductory Mathematics for Competitive Exams

Objectives

- To make the students aware that the Mathematics for competitive examinations are easy and solvable.
- Enable the student to understand the Math related problems in competitive examinations.
- Acquire knowledge to solve various types of Math Related problems.
- Identify patterns and come up with their own methods to solve the Math Related problem.
- Enable Students to solve Math Problems within specific Time Frame (Speedy Calculations)

Course Structure

- The course consist of 30 hours of lecture and 30 hours of problem solving/assignments within a span of 6 months.
- There will be an exam at the end of the course, the exam consist of 75 questions(50 MCQ, 25 Fill in the Blanks) with a time limit of 90 Minutes with each question carry one marks .

SYLLABUS

Unit 1 : Numerical Techniques (8 Hours)

Numbers, Arithmetic Operations , Different Types of Numbers.

Progression and Sequence : A brief introduction to Arithmetic and Geometric Progression and Techniques to find the general term, sum etc

Quadratic Surds: Simple Methods to find squares square roots and cube roots Quickly. The General Idea of and their properties.

Ratio and proportion, Math Identities

LCM and HCF : Simple Methods to find the LCM and HCF and relationship connecting LCM and HCF

Unit 2 : Logic, Reasoning , Aptitude (14 Hours)

Time and Work and Wages , Problem of Ages, Problem of Speed and Distance

Blood Relations, Embedded Figures, Coding and Decoding,

Pattern Completion, Counting of Figures, Calender Problems, Directions

Data Interpretation : Pie Diagrams, Line Graphs, Mixed Graphs etc

Unit 3 : Mensuration & Monetary Problems (8 Hours)

Length ,Area ,Surface Area, Volume, Height

Simple interest, Compound Interest, Profit and Loss, Average, Probability, Percentage

SUMMARY REPORT OF INTRODUCTORY MATHEMATICS FOR COMPETITIVE EXAMS 2017-18

CERTIFICATE COURSE- INTRODUCTORY MATHEMATICS FOR COMPETITIVE EXAMINATIONS -Report

Department of Mathematics offered a certificate course "Introductory Mathematics for competitive examinations" during the academic year 2017-18 . This course was intended to provide foundation knowledge in fundamental concepts of Mathematics related to competitive exams. In this course we offered classes based on tricks and easy methods in Mathematics for facing the competitive exams. Around 39 students from various departments of our college are participated this course.

Mr. Liju alex, took the introductory class for the students followed by another 30 hour lectures which was taken by department faculties. Solving previous year question papers of Bank test, SSC exams , PSC exams was also part of this certificate course. The main aim of our course is to provide an fundamental mathematical aptitude for students and to make the students attend various competitive exams confidently. As part of the course we conducted periodical mock tests, problem solving sessions, model exams. The majority of the classes were arranged from 4th July 2017 to 16 January 2018. We conducted a course exam for the students on 12th March 2018 and all students who attended the exams cleared it with more than 80% of students secured A grade.

Report of Certificate course on Computer Hardware Maintenance 2017-18

Certificate course on Computer Hardware Maintenance

Maintenance of computer hardware is a way of taking care, repairing and replacing broken and failing computer hardware. Maintenance is necessary on computers to avoid hardware failure or losing valuable information and most times, hardware breaks without notice. Excess heat accelerates the deterioration of the delicate circuits in the system. In view of this the Department of Computer Science offers a certificate course on Computer Hardware Maintenance in association with Logic Software Solutions Pvt. Ltd, Kottayam. Faculties from Logic Software Solutions Pvt. Ltd, Kottayam conducted the course . The duration of the course is 30 hours. Course certificate is given to the students after the successful completion of the course. Twenty three students attended the course during 2017-18.

BISHOP CHULAPARAMBIL MEMORIAL COLLEGE, KOTTAYAM
DEPARTMENT OF COMPUTER SCIENCE
Summary report of Computer Hardware Maintenance

2017-2018

The Department of Computer Science conducted hardware courses with a duration of 30 hours for each course. After the course completion, an exam was conducted and students were passed with high marks and issued a certificate for course completion. The main objective of this course is to train the students to acquire knowledge in PC Hardware, Software and the field of Networking. The Students will understand and gain knowledge in the basics of PC assembling and network

In 2017-2018 total 39 students attended all certificate courses. An external IT expert Mr. Naveen who took classes for our students. The classes started in October and finished in November. An examination was conducted to assess the progress. All the students completed the course meritoriously and certificates were awarded to them.

This course is an exploratory, first course in computer hardware systems and maintenance designed primarily for students in computer science. However, it also meets the needs of students in other fields, as a course that provides hands-on training in the installation, configuration, optimization and upgrading of computer systems. As a practical course, the focus is to impart useful skills on the students in order to enhance their ability to install, troubleshoot, repair and maintain computer systems. Topics to be covered include introduction to computer systems, computer system parts, maintenance techniques, approaches and tools; diagnostic techniques; system assembly and installation; troubleshooting and repair of computer systems and accessories; portable computers, etc

Objective of the Course:

To train the officials to acquire basic knowledge in computer hardware and peripherals for installation, PC assembly, troubleshooting and maintenance including system management and its backup and to undertake disaster prevention.

Learning Outcomes:

The student will be able to know the basics of Computer assembling and troubleshooting. This course will provide a brief knowledge of Computer networking and troubleshooting.

Certificate course on ASP.Net

ASP.NET is a web development platform, which provides a programming model, a comprehensive software infrastructure and various services required to build robust web applications for PC, as well as mobile devices. Microsoft Asp.Net Framework is a widely used development framework for building enterprise level web applications that today's programmers select to use. Currently, there is a huge number of individual engineers and software development companies that choose ASP.NET as their preferred web development technology. In view of this the Department of Computer Science offers a certificate course in ASP.NET in association with Logic Software Solutions Pvt. Ltd, Kottayam for the B.Sc. Computer science students. Faculties from Logic Software Solutions Pvt. Ltd, Kottayam conducted the course . The duration of the course is 30 hours. Course certificate is given to the students after the successful completion of the course. Thirty seven students were there in the course during the academic year 2017-18.

DEPARTMENT OF COMPUTER SCIENCE
Summary report of ASP.NET

2017-2018

The Department of Computer Science conducted ASP.NET with a duration of 30 hours for each course. After the course completion, an exam was conducted and students were passed with high marks and issued a certificate for course completion. The main objective of this course is to make students self dependent in computer programming and computer technology, so that students can make their career in the computer technology field.

In 2017-2018 total 39 students attended all certificate courses. An external IT expert Mr. Naveen who took classes for our students. The classes started in June and finished on July. An examination was conducted to assess the progress. All the students completed the course meritoriously and certificates were awarded to them.

Dot Net is the most demanded technology in all the industrial sectors with a wide scope in terms of job opportunities now and in the future too. This course will provide students with the tools and techniques to build dynamic Web sites using the ASP.Net programming environment. Students gain hands-on experience building a database-driven Web site. ASP.NET is a server-side scripting language introduced by Microsoft for building dynamic web pages. To learn the Dot NET, there are certain steps that need to be covered and understood with adequate details.

Learning Outcomes:

- Understand the Microsoft .NET Framework and ASP.NET page structure
- Design web application with variety of controls
- Access the data using inbuilt data access tools
- Use Microsoft ADO.NET to access data in web Application
- Configure and deploy Web Application
- Develop secured web application

Report of Certificate course on Java 2017-18

Certificate course on Java

Java is a general-purpose, object-oriented programming language. Java has been one of the most widespread and most efficient programming languages out there, for a very long time. The reason being that it has many benefits and perks that help programmers solve complex real-world problems at an ease. One of the most significant advantages of Java is its ability to move easily from one computer system to another. In view of this the Department of Computer Science offers a certificate course in JAVA in association with Logic Software Solutions Pvt. Ltd, Kottayam. Faculties from Logic Software Solutions Pvt. Ltd, Kottayam conducted the course. The duration of the course is 30 hours. Course certificate is given to the students after the successful completion of the course. Thirty five students attended the course during 2017-18

ACADEMIC YEAR 2017-18

Syllabus

Syllabus:-Java Programming

UNIT 1

Concepts of Object oriented programming, Benefits of OOP, Features of java. Java environment, java tokens, Constant, variables, data types, operators, Control Statements-branching statements, looping statements, jump statements, labelled loops.

UNIT 2

Defining a Class, Fields declaration, Method declaration, Creating object, Accessing class members, method overloading, Constructors, constructor overloading, super keyword, static Members, Inheritance, overriding methods, dynamic method dispatch, final (variables, methods and classes), abstract methods and classes, interfaces, visibility control.

UNIT 3

Arrays- One dimensional arrays, declaration, creation, initialization of arrays, two dimensional arrays, String class. Packages: - java API packages overview (lang, util, io, awt, swing, applet), user defined packages-creating packages, using packages, Exception Handling Techniques-try-catch-throw-throws-finally -Multithreading- creation of multithreaded program-Thread class-Runnable interface, Thread life cycle.

UNIT 4

Event Handling-Delegation Event Model-Event Classes-Sources of Events-Event Listeners-Event classes- Swing- architecture, components of swing- JLabel, JButton, JCheckBox, JRadioButton, JList, JComboBox, JTextField, JText Area, JPanel, JFrame, Layout Managers (Flow Layout, GridLayout, Card Layout, Border Layout, Box Layout, Null Layout).

UNIT 5

Applet Fundamentals -applet tag, applet life cycle, passing parameters to applets. Working with graphics -Line, Rectangle, Oval, Arc, colour setting. JDBC architecture- JDBC connection, JDBC statement object, JDBC drivers.

DEPARTMENT OF COMPUTER SCIENCE
Summary report of JAVA

2017-2018

The Department of Computer Science conducted JAVA courses with a duration of 30 hours for each course. After the course completion, an exam was conducted and students were passed with high marks and issued a certificate for course completion. The main objective of this course is to make students self dependent in computer programming and computer technology, so that students can make their career in the computer technology field.

In 2017-2018 total 35 students attended all certificate courses. An external IT expert Mr. Naveen who took classes for our students. The classes started in June and finished in July. An examination was conducted to assess the progress. All the students completed the course meritoriously and certificates were awarded to them.

The java especially for third year students to explore the power and simplicity of the java language. All the students really appreciated the contents that were discussed, they realised that interactions like these can help them improve their learning.

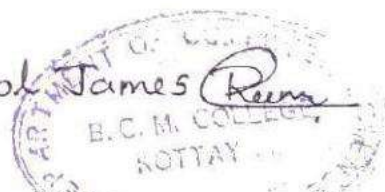

Objectives

- Gain knowledge about basic java language syntax and semantics to write java programs and use concepts such as variables, conditional and iterative execution methods etc.
- Understand the fundamentals of object-oriented programming in java, including defining classes, objects, invoking methods etc and exception handling mechanisms.
- Understand the principles of inheritance , packages and interfaces.

Outcomes

- Write java application programs using OOP principles and proper program structuring
- Demonstrate the concepts of polymorphism and inheritance.
- Write java programs to implement error handling techniques using exception handling.

Name of class in charge : Reenu mol

Name of head of department: Divyas

Report of Certificate course on PHP 2017-18

Certificate course on PHP

PHP is a scripting language designed for developing dynamic web pages. While its principal purpose was server-side scripting, it has grown to incorporate a command-line interface capability and can be used to develop client-side Graphical User Interface (GUI) applications as well. The open-source tools and high running speed make PHP one of the most preferred languages for creating interactive websites and web applications. Some of the biggest web platforms of today, including Facebook, Flickr, Yahoo, MailChimp, and Wikipedia, to name a few, use PHP in their end-to-end computing infrastructure. As the market for PHP increases, businesses are looking for new PHP web development trends to develop a perfect web app. In view of this the Department of Computer Science offers a Certificate programme on PHP for the students to give an awareness about web designing using PHP. It is a thirty hour duration course and this course is offered in association with Logic Software solutions private limited, Kottayam. Thirty nine students attended the course during the academic year 2017-18.

DEPARTMENT OF COMPUTER SCIENCE
Summary report of PHP

2017-2018

The Department of Computer Science conducted PHP courses with a duration of 30 hours for each course. After the course completion, an exam was conducted and students were passed with high marks and issued a certificate for course completion. The main objective of this course is to make students self dependent in computer programming and computer technology, so that students can make their career in the computer technology field.

In 2017-2018 total 39 students attended all certificate courses. An external IT expert Mr. Naveen who took classes for our students. The classes started in January and finished on february. An examination was conducted to assess the progress. All the students completed the course meritoriously and certificates were awarded to them.

Objective of the Course:

To provide the necessary knowledge to design and develop dynamic, database-driven web applications using PHP version 5. Students will learn how to connect to any ODBC-compliant database, and perform hands-on practice with a MySQL database to create database-driven HTML forms and reports etc. Students also learn how to configure PHP and Apache Web Server. Comprehensive lab exercises provide facilitated hands-on practice crucial to develop competence web sites.

Learning Outcomes:

- Build HTML-based mobile app
- All PHP Fundamentals and Building Blocks with practical implementation in Projects
- The students get hands-on experience of how things happen in PHP?
- The students can be able to understand the concepts of client and server
- The students are able to perform form handling using PHP.
- Be proficient with databases and server-side language

DEPARTMENT OF COMPUTER SCIENCE
Summary report of UBUNTU

2017-2018

The Department of Computer Science conducted UBUNTU courses with a duration of 30 hours for each course. After the course completion, an exam was conducted and students were passed with high marks and issued a certificate for course completion. The main objective of this course is to make students self dependent in computer programming and computer technology, so that students can make their career in the computer technology field.

In 2017-2018 total 35 students attended all certificate courses. An external IT expert Mr. Naveen who took classes for our students. The classes started on in January and finished in February. An examination was conducted to assess the progress. All the students completed the course meritoriously and certificates were awarded to them.

This course introduces the student to the Linux Operating system with particular emphasis on command line tools, utilities and shell scripting. The student will learn and apply the various commands and utilities related to file system management, process management, program development and data processing. In addition the student will learn about shell concepts and become proficient in the use of shell features such as command line editing and learn and apply Unix concepts such as pipes and filters.

On completion of this course the student should be able to:

- Identify and use UNIX/Linux utilities to create and manage simple file processing operations, organise directory structures with appropriate security, and develop shell scripts to perform more complex tasks.
- Effectively use the UNIX/Linux system to accomplish typical personal, office, technical, and software development tasks.
- Monitor system performance and network activities.
- Effectively use software development tools including libraries, preprocessors, compilers, linkers, and make files.
- Comprehend technical documentation, prepare simple readable user documentation and adhere to style guidelines.
- Collaborate in teams on system tasks.

Name of class in charge: Rev. Mr. James

Name of the department: Divya S

Certificate Course –Radio and New Media Writing 2017-2018

The Department of English offers a certificate course on Radio and New Media Writing in 2017-2018. This course gives an opportunity for students to engage in learning about the various opportunities associated with journalism. The certificate course on Radio and New Media Writing provided by the English department aims at enabling its learners to adequately write and present news by abiding to the rules of media writing. In order to do so the students were primarily introduced to the history of Indian Broadcasting radio and to the basic governing rules of writing.

CERTIFICATE COURSE REPORT 2017-2018 RADIO AND NEW MEDIA WRITING

To enlighten the students with nuances of new media writing and technicalities of radio media, the department of English has conducted a certificate course titled Radio and New Media Writing of 30 hours.

A meeting was conducted by the board of studies on 9th of November and the classes officially started on 15 November 2017. Miss Sona Saira Tharian and Miss Deepa Susan Viji were in charge of the class of 28 students from various departments. We also sought assistance from external faculties: Neethu Elza Vargheese, Faculty, CMS College Kottayam and Raju Anikkad, Visiting Professor, Bishop Chulaparambil Memorial Collage, Kottayam.

Starting with the history of Indian radio broadcasting, the first module of the program writing for radio familiarizes the students about the importance of radio as a medium of communication. This module was dealt with many discussions on importance of voice in broadcast, type of radio programmes: spoken word programs and music programs, radio news, radio features, radio interviews, documentaries drama etc. To ensure the involvement of students, practical sessions for writing radio scripts, visit to radio station and comparing sessions were conducted as a part of the course.

The second module new media writing aims at providing awareness about the opportunities in technical writing field to the students. The teachers introduced the importance of Internet and the world wide web in new media writing. the students were also enlightened about the difference and technicalities of writing for web media the sessions provided guidelines and planning regarding this and discussed structure style of new media writing.

The exam for the course was conducted on 15th February 2018 after its completion on 7th February.
