Summary Report of Add on course on Travel and Tourism 2019-2020

ADD ON COURSE -TRAVEL AND TOURISM
OFFERED BY THE DEPARTMENT OF ECONOMICS
SUMMARY REPORT 2019-2020

The Add on course offered by the Department of Economics for the academic year 2019-2020 was Travel and Tourism. The course had a vast syllabus covering areas like dimensions of international and domestic tourism, components of tourism, Tourism in India, social tourism etc. Upon completion of this course, the students were equipped with basic knowledge and skills to contribute to the tourism sector development of the Nation.

The travel and tourism course is very much benefitted to the students because of several reasons. Firstly, Careers in the tourism and hospitality industry are amongst the fastest growing areas of employment in the world. Secondly, with more and more people travelling each year, it's essential to understand the impact this has on cultures, communities and our planet. Tourism has the potential to make the world a better place by bringing economic benefits to poorer destinations and keeping tourists hotspot flourishing.

The classes of Add on course for the academic year 2019-20 were commenced on September 10th 2019 and ended on 4th March 2020. The course was completed by taking Seventy-six sessions, each having one hour. There were 80 students in the batch, out of which all appeared for the exams, and there was a 100 per cent pass percentage. The teacher in charge of the academic session was Mr Tibin Thomas, Faculty of Tourism Department, JPM College, Labakkada, Idukki.

Report of Add on Course on Journalism and Mass Communication 2019-20

Add on Course on Journalism and Mass Communication

We all are connected through a web of different means of communication. Whether it's the latest news around the world or news on cricket scores, we get to know about them. This is all because of mass media and technology. Media has played a significant role in strengthening society. There's an ever-increasing scope for aspirants in the field of Journalism and Mass Communication. Its scope in India is wide, if you can do well in your field, you can work with some of the best publishing houses, production houses, news channels, radio channels, or PR firms of the country. Indian university graduates looking to stand out in an increasingly competitive and globalised job market have turned to vocationally and professionally oriented add-on programs in recent years to give them an edge over their peers with a conventional undergraduate degree only.

Upholding this dream, in our college Journalism and Mass- Communication as an add-on course was started to offer certificate and diploma courses to the undergraduate students of the college by the Department of Sociology. We offer both Diploma and certificate courses in the discipline backed by internships, which really make the students not only employable, but also help them to acquire the basic skills needed for the most sought-after professions of the New ages. Thirty six students completed the certificate course and ten students completed the diploma course during the academic year 2019-20.

Journalism Reporting, Structure and Types of News Reports, News Writing for TV serial and TV commercial, Fundamentals of Good Writing etc. Paper II covers the history and evolution of communication, growth of print media, genres of television, format of radio etc. Paper III covers the history of journalism, world journalism, origin of and growth of Indian Journalism, history of Malayalam journalism, press laws, code of ethics in journalism etc.

The course also provides practical sessions for the students. For the Certificate Course, there is a 10 days internship and for Diploma Course, there is 30 days internship at different media related institutions such as Malayala Manorama, Deshabhimani, Mangalam etc. This helps the students to understand the practicality in this field and the jobs done by a journalist. This also helps the students to understand the happenings in a News Bureau.

The classes were conducted on alternate days from Monday to Friday from 8.30 am to 9.30 am. The classes were taken by two resource persons, Mr. Naduvattom Satyaselan from Mangalam daily and Mr. Raju Anicadu from Surya TV Reporter.

This year, the classes of course started in the month of November. Thirty students had joined in certificate course. In the month of April, the students wrote reports on the topic 'Lock Down' and these reports were published in various online platforms like xpat news, digital malayali etc. The classes were conducted as usual but the 10 days internship was not possible due national 'Lock-down' and it was replaced by a viva-voce conducted by Mr. Raju Anicadu based on Journalism, Mass Communication and General Awareness.

This course helped the student to acquire an additional Diploma and this made the student one step ahead in her qualification within a short span. This is advancement in her career as it is provide a certificate approved by Mahatma Gandhi University. It provides the essential skill set that one needs to reach their goal faster in an efficient manner.

Add on Course - Electronic and Electrical Equipment Maintenance

Electrical maintenance is the process of electrical systems inspection, testing, monitoring and replacing all electrical parts as required, using hand tools, thermal imaging, computerised programs and special measurement devices, to keep systems and machines working efficiently and safely. The department of Physics offers an add on course on Electronic and Electrical Equipment Maintenance for the graduate students. The course equips the students with practical knowledge of how to do the small Electronic and Electrical Equipment Maintenance work at their homes. The course is of ninety hour duration. Sixteen students completed the programme.

SYLLABUS

Electrical and Electronic equipment Maintenance

Detailed Syllabus

First year (Certificate course)

Paper 1 Fundamentals of Electrical and Electronics

1. Electric Theory

Ohms law, Kirchoff's Laws-current law and voltage law

2. Resistors

General information: Symbol, colour code, Types, Variable resistors and measurement of resistance using multimeter

3. Inductors

General information: Symbol, Types, Chokes Inductance measurement

4. Transformers

General information: Principle, Types, and Design of main transformer

5. Capacitors

General information: Symbols, Colour codes, Types - Fixed and variable capacitors, measurement of capacitance

6. Basic Electronics

Diodes, Transistors, FET, UJT, MOSFET, IC, Bread Board

7. Measuring Devices

Thermometer, Barometer, Multimeter, LCR meter, Voltmeter, Ammeter, Galvanometer, Signal generator, CRO

Practicals

Identification of terminals of active and passive components

Testing of components

Soldering Practice

Paper II House wiring and Installation of equipments

1. Electrical Components- Switches, Cables and Electrical fittings Bulbs, Tubes, Plugs- testing of connection. Single phase and three-phase wiring, Different types of loads, Earthing Method
2. Power consumption General information, Methods to reduce power consumption – Bulbs and Tubes

Practicals

1. House hold single-phase wiring
2. Illumination Techniques-Domestic Applications

Paper III Assembling & Maintenance of Household Electrical Equipments

Assembling and Servicing

Power supply Adapters, Battery Chargers, Regulated Power Supply, Electronic Choke- Tube fittings

Household equipment Maintenance- Iron Box, heater, mixer, grinder and fan

Practicals

1. Computers-Familiarization of input and output devices and connections
2. Maintenance of Iron Box, heater, mixer, grinder and fan

On The Job Training

Second year (Diploma Course)

Paper I Power supply and Stabilizers

1. Power supply- Rectifiers, filters, and regulators-different types
SMPS
Uninterrupted power supply (UPS)- different types, Charger- Battery,
2. Various Types of Stabilizers, UPS and its working

Practicals

1. Assembling and servicing of different types of power supplies

Paper II Illumination and Inverters

1. Different Types of Lamps –Filament Lamp, Fluorescent Lamp, Sodium Lamp, Mercury Lamp, UV and IR Lamps, Halogen Lamps , CFL Lamps-Their domestic and industrial applications. Basic Principle and working of lux meters. Modern Methods of lighting-Stages, rooms and auditorium. Light Sensors.
2. Various Types of Inverters- working.

Practical

Maintenance - Inverters

Paper III Computer Hardware and Maintenance.

1. History of Computers-Architecture of Computers-Characteristics-Speed, Storage, Accuracy and Versatility.
2. Hardware-Peripheral Devices-Input Devices- –Output Devices- Audio Out Put Devices- Storage Devices-Primary storages-RAM, SRAM, DRAM, ROMs-Secondary Storage Devices-Magnetic Tapes, Magnetic Disks, Floppy Disks, Hard Disks, Optical Disks, CDs and DVDs-Bubble Memory, Memory Button, Memory Cards, Smart Cards.

Practical.

1. Computer Assembling
2. Software Installations.

On The Job Training

Third Year (Advanced Diploma Course)

Paper I Embedded Systems

Microprocessors and microcontrollers
PIC- Architecture- different versions, Modules, Instruction set.

Practicals
Simulation

Paper II Protection circuits

Different types of protections- over voltage, under voltage, over load, short circuit, Relays, Indicators

Practicals
Assembling different types of protection circuits

Paper III Television Engineering

TV receiver- different blocks, power supply Ics used in TV receivers
Operation Principles of picture tube
Antennas, Boosters

Practicals
Servicing of Television

Add-on Course on Electronic and Electrical Equipment Maintenance

Report 2019-20

Department of Physics

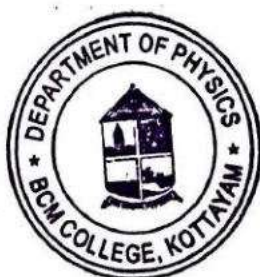

The add-on certificate course on “Electric and Electronic Equipment maintenance” is offered by Department of Physics, Bishop Chulaparambil Memorial College, Kottayam. This course is typically available after the commencement of first year UG degree by MG University. This course will disclose the use of basic electronic equipments to the working and troubleshooting of household equipments. The 90 hours course provides opportunity for theoretical and practical activities with hands on experience on household equipment maintenance.

During the academic year 2019-20, twenty-six students of different UG programs joined the certificate course in Electronic and Electrical Equipment Maintenance. Sixteen students completed the course that year. The course included fundamentals of electrical and electronics, house wiring and installation of equipments and assembling & maintenance of household electrical equipments. Ms. Jithu Susan Jacob and Dr. Elizabeth V John took more than 90 contact classes during the August 2019 – January 2020. The classes were taken after the regular

Through this programme students learned basic electrical and electronic components and circuit analysis. This course also taught students how to complete a logical and systematic search for the source of a problem to solve it, making the electrical and electronic devices operational again. Thus this comprehensive course equip students with valuable knowledge, enabling them to repair the electrical and electronic devises, empowering them at home and also towards a career in household equipment maintenance.

Add on Course on Computer Application

Computers play a role in every field of life. They are used in homes, business, educational institutions, research organisations, medical field, government offices, entertainment, etc. The Computer Applications program is designed to provide the skills needed in the use of application software on a computer. Applications covered include word processing, spreadsheets, databases, desktop publishing, the Internet, and the Windows operating systems. The Department of Physics offers an add on programme on Computer application. The classes were offered for all interested students. The main aim of the program is to make the students aware of the basic computer operations. Fifty three students joined from various graduation schemes during the academic year 2019-20 for this course.

Summary Report of Add on course on Computer Application 2019-2020

Add-on course on Computer Applications

Report 2019-20

Certificate course in Computer application offered by the department of Physics, was introduced for UG students. We live in a society that consumes the content –news, information, entertainment or communication through screens. We are living in a digital era driven by computer science and hence the need of certificate courses in computer sciences for students is essential. The class was open to all students who are interested to acquire basic IT skills that are vital in our day-to-day life.

During the academic year 2019-20 fifty-three students from various arts and science stream joined this certificate course. The classes were handled by Mrs. Regi Jose and she took more than 90 contact classes during the period July 2019- January 2020. The classes were fruitful and the sessions were interactive. The course covered basic computer knowledge, internet, and basic programs in Windows and Linux operating system like Microsoft Office. Both practical as well as theoretical examinations were conducted to ensure the progress of students.

All the students completed the course meritoriously. This course helped the students to enhance their knowledge in digital field and to use the computer and internet for research, inventions, learning, entertainment and experiments. With the basic computer knowledge, students are more likely to enjoy studying with fast access to research and assignments resulting in better performance.

Add on Course - Aesthetic Treatments From Nature

A shining and glowing skin is a dream for every young lady. A healthy skin depends on how well you take care of it daily. Many of the young girls may not get an opportunity to go to a beauty parlour for a makeover. There comes the need of an add on course like Aesthetic Treatments from Nature, since nature is the mother of beauty. By understanding this the Department of Chemistry offers an add on course on Aesthetic treatments from Nature from 2019 onwards for the undergraduate students of Bishop Chulaparambil Memorial College, Kottayam. This course offers students an opportunity to learn some basic beauty tips which they themselves can do at their own home.

The advertisement features a black background with yellow and teal text. At the top left is the college crest. The central image shows a white mortar and pestle with green leaves, two small glass bottles of yellow liquid, and a pink circular object. The text is arranged in a vertical flow, starting with the college name, followed by the department, the course title, and the academic year.

Summary Report of Add on course on Aesthetic Treatments from Nature 2019-2020

Add on Course in Aesthetic Treatments from Nature

Summary Report 2019-2020

The desire to improve our appearance and to pursue a certain ideal of beauty has existed for as long as human history has been recorded. Aesthetic or otherwise called cosmetic treatments are non-surgical procedures designed to combat signs of ageing, rejuvenate and refresh skin. Facial aesthetic treatments' is a broad definition that includes all the non-surgical treatments of the face, from topical medical-grade skincare products to injectables, to thread lifts. They are designed to reduce the signs of ageing and to give you a natural and fresh look to your face, without the need for any invasive surgical treatments.

A holistic approach to facial aesthetics can help you plan treatments that take care of your primary skin concerns as well as achieve a well-rested, rejuvenated and glowing face. These treatments are highly effective, with results beyond the reach of regular salon facials and skincare."

Keeping this in mind The Department of Chemistry offered an Add-on course in Aesthetic treatment from Nature during the academic year 2019-20. It was previously dealt with by the Department of Botany. We have a well equipped parlour where we have all facilities for this course. During 2019-20 Ms. Sharon Maria Stephen was in charge of the course. 59 students participated in this course and all of them passed the exam. Mrs. Geena George was the resource person for the programme.

Course out come

The students get an opportunity to get familiar with the basic beauty tips and they will get a hands-on experience about some basic beauty treatments like threading, pedicure, manicure etc.

Certificate course on Entrepreneurship Development

Entrepreneurship provides civilization with an enormous amount of goods and services and enhances the growth of social welfare. The main importance of entrepreneurship is the creation of job opportunities, innovation, and improvement of the economy. Entrepreneurs are important to market economies because they can act as the wheels of the economic growth of the country. By creating new products and services, they stimulate new employment, which ultimately results in the acceleration of economic development. Keeping this as the aim the Department of Economics offered a certificate course titled Entrepreneurship Development for the undergraduate students. The course had a vast syllabus covering areas like definition of entrepreneur, interpersonal skills, time management skills, entrepreneurial competencies etc. This course equipped the students to acquire the necessary skills for becoming a successful entrepreneur.

DEPARTMENT OF ECONOMICS

CERTIFICATE COURSE REPORT 2019-20

Certificate Course on Entrepreneurship Development

The Department of Economics offered a certificate course on Entrepreneurship Development in the academic year 2019-20. In recent years, entrepreneur and Entrepreneurship Development Programme (EDP) has become a serious matter of discussion. Entrepreneurs are considered as agents of economic growth. They create wealth, generate employment, provide new goods and services, and raise the standard of living. Certificate course on Entrepreneurship Development was an effective way to develop entrepreneurs which can help in accelerating the pace of socioeconomic development, balanced regional growth, and exploitation of locally available resources. It can also create gainful self-employment. This Certificate course equips budding entrepreneurs and makes them competent to anticipate and deal with a variety of problems that any entrepreneur may have to face. It gives confidence to the entrepreneur to face uncertainties and take profitable risks. It prepares them to deserve and make good use of various forms of assistance.

In this programme, we have discussed about meaning of entrepreneur, characteristics of entrepreneur, role of entrepreneur in economic growth etc. The course primarily aimed at enhancing the entrepreneurial capabilities of the participants. The structure of the course was designed in such a way that it gives an all-round awareness to the participants regarding entrepreneurship – Possibilities and Challenges.

Certificate course on Entrepreneurship Development was conducted to help the participants in strengthening their entrepreneurial motive and in acquiring skill and capabilities required for promoting and running an enterprise efficiently. An Interactive session was conducted with a motive to promote potential

entrepreneurs, understanding their motives, motivational pattern, and impact on behaviour and entrepreneurial value. Through this course we tried to give information to the prospective entrepreneurs regarding new business idea, how to set up a new venture, how to prepare a project report, sources of finance etc.

The classes for the same commenced on 6th of January 2020. There were 30 lecture hours in the course. There were 46 students in the batch. All students appeared for the exam and there was cent percent Pass. The faculty in charge of the academic Session was Ms. Delitta Kurian.

Certificate course on Guidance and Counselling for Everyday life

Guidance and counselling help to recognize and understand one's talents and abilities, help to develop an optimistic outlook for removal of undesirable traits, it aids to develop resourcefulness and self-direction in adapting to changes in society. Good conduct is coveted, but sometimes young minds need guidance to polish their personality. Through counselling, students are given advice on how to manage and deal with emotional conflict and personal problems. Proper counselling will help incorporate valuable lessons in their daily life. Some sessions should involve career guidance, where the students are advised on the selection of courses and different career paths. It's important to prepare them for life after education and what to expect in the different fields they might opt for. Keeping this in mind the Department of Sociology conducts a certificate course on Guidance and counselling for the undergraduate students in order to equip them with some basic principles and techniques on guidance.

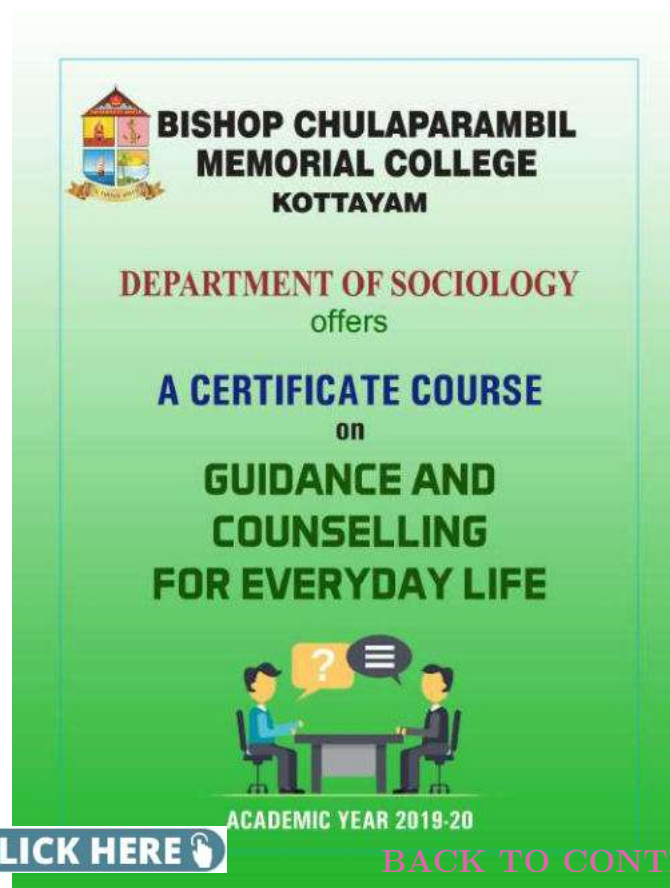

The main objectives of the course are

- 1.To understand principles and concepts on guidance .
- 2.To recognize role of guidance in mental health
3. To understand various techniques to assess human behaviour.

Course Outcome

To enable students to

- Identify major concepts used in Guidance and Counselling.
- Get understanding about various psychometric methods and techniques for guidance and counselling.

Summary Report of Certificate course on Guidance and Counselling 2019- 2020

Report of Certificate Course : Guidance and Counselling for Everyday Life (2019-20)

Guidance and counselling is an additional certificate course provided along with the regular degree in our college. Every year this course is provided by the Department of Sociology. This course would make the students aware of the basics of guidance and counselling. In addition to their degree this course will help the students as they will get an additional qualification as well as a new skill. This course will enhance the calibre of the students.

The main objectives of the course is to make the students understand the principles and concepts on guidance. It also make them aware of the role of guidance in mental health which can be really useful in their life. The course also to teach them various techniques to assess human behaviour which can be an additional skill for them.

The students from all the departments were admitted to this course. The students who were interested in learning the course and wanted to pursue it as career were admitted for the course. The certificate course has a high value and would help the students in their future endeavours.

The duration of the course was 30 hours. The syllabus of the course was made in such a way that it can fulfil the main objectives of the course. The course consists of three units. Unit 1- Career guidance work and mental health covers the meaning of work, relation between work and leisure, need for mental health and its characteristics, role of Guidance Personnel in promoting mental health etc. Unit 2- Psychometric methods and techniques for guidance and counselling-Quantitative techniques covers various tests such as the Psychological test, Aptitude test, Achievement test, Personality test etc. And Unit 3- Counselling Approaches covers different approaches such as Cognitively oriented, Trait and factor oriented, Affectively oriented and also the

conditions that influence counselling. Additional class hours were utilised to complete this course. Ms. Siya Cicily Alex , trained Psychologist ,was the resource person for the certificate course for the year 2019-20. The resource person shared her valuable knowledge which helped the students in exploring a new area of study other than their degree course. A total of 140 students chose the course. Students got basic practical approaches as well as theoretical knowledge about this field which helped in enhancing their skill. An exam was conducted after the completion of the course. This course turned out to be a great experience for the students as they could learn and understand a skill in a short period of time which can be helpful in their future.

DEPARTMENT OF FOOD SCIENCE & QUALITY CONTROL

CERTIFICATE COURSE 2019-2020

Summary Report

Safe Food Handling Techniques

The Department of Food Science and Quality Control (FSQC) conducted a certificate course on Safe Food Handling Techniques in the year 2019-20. 42 students attended the same. Five students from English department and Thirty seven students from Food Science & Quality Control department.. Ms. Abiya Liya Thomas conducted the classes. The total duration of the course was 30 hours.

Food safety plays an important role in the reputation of an establishment. Implementing good, safe practices will ensure you are doing all you can to avoid a foodborne illness outbreak. Never give up on food safety; it's an investment you can't afford to not make Food safety and food hygiene are the two requisites of the food industry and should be the priority.

A safe and hygienic workplace helps the workforce to be productive. That's why drafting a food safety and hygiene policy is the need of the hour so that it can contribute to the good health of the employees and appropriate work practices. Besides employee health, food hygiene and safety prevent germs from multiplying in foods causing many life-threatening illnesses. The course definitely helped the students to get to know the food ingredients and their processing and handling methods closely.

OBJECTIVES

- This course will provide students with information on Design and Construction of Food Premises, Safety, Personal Hygiene and General handling of food. The purpose of this course is to provide people who handle food the information needed to facilitate and apply good food handling practices.
- To create awareness of the Top Workplace Safety Hazards and techniques for reducing risk of injury and illness.
- To understand how the food becomes unsafe.

SYLLABUS

CERTIFICATE COURSE ON OYSTER MUSHROOM CULTIVATION

Mushrooms are fungi, which is a separate kingdom of life from plants and animals. Mushrooms are low-calorie, high fibre food choices that can be used diversely in cooking. The Department of Botany, Bishop Chulaparambil Memorial College, Kottayam offering a certificate course on oyster mushroom cultivation. By attending the course the students will get enough knowledge to cultivate mushrooms for their diet and small scale business.

CERTIFICATE COURSE

DEPARTMENT OF BOTANY-OYSTER MUSHROOM CULTIVATION

SUMMARY REPORT

A certificate course program on oyster mushroom cultivation was conducted by the Department of Botany, Bishop Chulaparambil Memorial College under the guidance of Dr. Peter K Mani (HOD). There were a total of 70 students from different discipline (v th Semester) participated in the course. During this course, lecturers were given to students about the nutritional properties of mushrooms and importance of adding mushrooms in diet. Demonstration and hand on training of different steps of mushroom cultivation were provided to each participants. At the end of the course, the mushrooms produced were harvested and converted it to different value added products. On completion of this course, the students applied the knowledge and training secured through this course for their own dietary purposes and small scale business.

Certificate Course on Detergent Chemistry

Hygiene is an important factor for public health. To maintain the cleanliness of the body, clothing, housing and public areas needed cleaning or laundry soap products that are reliable. The housewife, hospitals, other public facilities to five star hotels to make detergents as part of everyday life for washing clothes and household appliances. Soaps are made from natural ingredients, such as plant oils (coconut, vegetable, palm, pine) or acids derived from animal fat. Detergents, on the other hand, are synthetic, man-made derivatives. The Department of Chemistry offers a certificate programme on Detergent Chemistry. This programme is of 30 hours duration comprising 25 hours theory classes and 5 hours hands on experiments session. The course aims at hands-on experience on eco-friendly soap making.

Summary Report of Certificate course on Detergent Chemistry 2019-2020

Summary Report of Certificate course -Detergent Chemistry

Offered by Department of Chemistry during the year 2019-2020

Hygiene is an important factor for public health. To maintain the cleanliness of the body, clothing, housing and public areas needed cleaning or laundry soap products that are reliable. The housewife, hospitals, other public facilities to five star hotels to make sure this one product as part of everyday life for washing clothes and household appliances. One of the biggest advantages of detergents over soaps is that they can work in any condition. They can work in normal water as well as hard water. They do not form any scum in hard water. Some detergents are even able to work in ice cold water. Detergents are long chains of molecules similar to soaps. One of the types of molecules are hydrocarbons made of carbon and hydrogen atoms. These hydrocarbons are derived from fats, oils, fatty acids etc. The other ingredient will depend on the type of detergent.

The soap industry in India is at a high growth rate and many new entrants are planning to launch their product in this category. Soap and detergents are easy to manufacture as mixing in the right quantities is the major step. With training on the formula and manufacturing process, you can start manufacturing them at home with no major equipment. Soap and Detergent making business is suitable for entrepreneurs willing to begin with moderate investment.

Soaps and Detergents work with a simple chemistry and it is very easy to manufacture them at home. Keeping this in mind, the Department of Chemistry offers a certificate course in Soaps and Detergents. This programme is of 30 hours duration comprising 25 hours theory classes and 5 hours hands on experiments session. The number of participants during the year 2019-2020 was 35. Dr. Radhika S was the teacher in charge of this course. The course started on 29/01/2020 and ended on 04/3/2020 during the academic year 2019-2020.

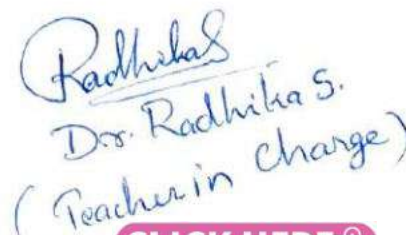

The course outcome

- To get the students hands-on training in soap and detergent making, it can be a stepping stone to entrepreneurship in the soap and detergent industry.
- To make soaps and detergents without adding any unwanted chemicals.

The attainment of course outcome was evaluated by an assessment test and also the students were asked to make soaps on their own and displayed.

Certificate Course on Bioplastics

Therefore, bioplastics are sustainable, largely biodegradable, and biocompatible. Today, bioplastics have become a necessity in many industrial applications such as food packaging, agriculture and horticulture, composting bags, and hygiene. With increasing demand for global plastic consumption, a lot of research is being dedicated toward exploring green materials and new ways to process them. In view of the importance of bioplastics the Department of Chemistry, Bishop Chulapparambil memorial college in association with CIPET, Ernakulam offered a certificate course in Recent trends and Developments in Bioplastics. This programme is of 32 hours duration and the classes were taken in the CIPET campus, Ernakulam as a residential programme. The outcome of this course is to get knowledge about recent trends and developments in Bioplastics, thereby allowing them to opt for this field for their higher studies.

Summary Report of Certificate course on Recent Trends and Developments in Bioplastics 2019-2020

Summary Report of Certificate course -Recent trends and Developments in Bioplastics 2019-2020

Plastic is a material made to last forever, yet 33 percent of all plastic - water bottles, bags and straws - are used just once and thrown away. Plastic cannot biodegrade. Bioplastics are made wholly or in part from renewable biomass sources such as sugarcane and corn, or from microbes such as yeast. Some bioplastics are biodegradable or even compostable, under the right conditions. Bioplastics made from renewable resources can be naturally recycled by biological processes, thus limiting the use of fossil fuels and protecting the environment. Therefore, bioplastics are sustainable, largely biodegradable, and biocompatible. Today, bioplastics have become a necessity in many industrial applications such as food packaging, agriculture and horticulture, composting bags, and hygiene. Bioplastics have also found their use in biomedical, structural, electrical, and other consumer products. With increasing demand for global plastic consumption, a lot of research is being dedicated toward exploring green materials and new ways to process them.

In view of the scope of bioplastics The Department of Chemistry, Bishop Chulapparambil Memorial College in association with Central Institute of Petrochemicals Engineering and Technology (CIPET), Ernakulam offers a certificate course in Recent trends and Developments in Bioplastics. CIPET: Institute of Petrochemicals Technologies (IPT) - Kochi is a model centre for Academic Programs in Biopolymer Science, Polymer Science & Technology and will also focus on promoting Bio plastics and natural fibre based green composites.

This programme is of 32 hours duration and the classes were taken in the CIPET campus, Ernakulam as a residential programme. The number of participants during the year 2019-2020 was 24. Dr. Annu Thomas was the teacher in charge of this course. The course was conducted during the month of November.

Course Outcome

- To get knowledge about recent research and developments in the field of Bioplastics.
- To open a new opportunity for higher studies.

The attainment of course outcome was evaluated and a certificate of merit was awarded by the CIPET.

Certificate course on Ornamental Fish Breeding Culture and Management

Ornamental fish breeding culture is a prospective business due to the high demand for these fishes. The increasing demand for aquarium fishes gradually paved the avenue towards global trade of ornamental fishes. World trade of ornamental fish is estimated to be about Rs. 2000 crores, but, India's share is only Rs. 15 crores, which is very insignificant. Generally, the exotic fish dominate the Indian market and more than 250 varieties have been recorded from the domestic market. More than 200 species of these freshwater fish are bred in different parts of India by the ornamental fish breeders and aquarium hobbyists.

Upholding this demand the Department of Zoology offers a certificate programme on Ornamental fish breeding culture and management for the undergraduate students. The students were taught about the scope of the ornamental fish sector, how they can become entrepreneurs in this area. They have visited various fish breeding centres and farms. They were taught to breed guppy and fighter fish along with the steps in setting up aquarium units. Twenty one students participated in this course during 2019-20.

Syllabus of Ornamental Fish Breeding Culture and Management

Syllabus of Ornamental Fish Breeding Culture and Management

(Total Hours –30)

Module I: Ornamental fish culture - History of aquarium fishes, current status and prospects of ornamental fish culture in India. Commercial status. (2hrs.)

Module II: Fish keeping as a hobby, occupation and practice. Ornamental fish culture trade in India. Marketing potential, strategies and scope of fish keeping entrepreneurship in India. (3hrs.)

Module III: Fish culture practices in freshwater, brackish water and marine habitats. Different species of fishes used in culture practices. Water management and Health management in aquariums, Tips for ornamental fish farming. Nutrition and feeding. Common fish diseases and their management. Fish breeding techniques. (5hrs.)

Module IV: Setting up of an aquarium. Species selection, Infrastructure requirements, production capacity, marketing potential and strategies, working capital, means of finance, profitability and market. (5hrs.)

Module V: Proposals for the establishment of ornamental fish farming. NABARD'S model bankable projects. Funding agencies, Role of fishery institutes of India for establishing ornamental fish farming. Training facilities ICAR-CIFA technologies for rearing and management of ornamental fishes. (5hrs.)

Field, Institutions, Nursery and aquarium visits (5hrs.)

Setting up of model aquariums (5hrs.)

Certificates will be issued for students with 80% attendance

2019-2020

CERTIFICATE COURSE: ORNAMENTAL FISH BREEDING, CULTURE AND MANAGEMENT

The objective of the certificate course was to introduce students to the area of ornamental fish breeding culture practices. The hobby of keeping ornamental fish is increasing every day. It offers great opportunities for entrepreneurial development and income generation. There is Number of grant programs from various government agencies to support aspiring entrepreneur. The students were taught about the scope of ornamental fish sector, how they can become entrepreneurs in this area. The students have visited various fish breeding centres and farms as part of this course. They were taught to breed guppy, angel fish and fighter fish along with the steps in setting up aquarium units. Classes on common fish diseases and parasites were taken.

Twenty one students have enrolled and all of them finished the course. All the enrolled students had set up an aquarium at their home and they have also maintained and improvised the aquarium at the department set up by the 2018-2019 batch. They were able to prevent common fish diseases by properly maintaining the water quality and by identification, isolation and timely use appropriate medicines.

Certificate course on Our Universe: The world around us

A new Certificate course titled 'Our Universe: The World around Us' was introduced by the Department of Physics during the academic year 2017-18. The course is intended for students of any discipline interested in astronomy. The course helped the students to understand the planets and small bodies that inhabit the solar system. Twelve students from various departments attended this course during the academic year 2019-20.

SYLLABUS

Syllabus

No.of contact hours: 30 Hrs

Scope: To help the students to comprehend the Cosmos and its origin and to develop

Prerequisites:- This course is intended mainly for the students of other disciplines. So a secondary level knowledge of mathematics and physics is enough to study this course But an inquisitive mind and curiosity are essential for a student.

Module I Our Universe(6 hours)

Early models of the universe-Geocentric model Ptolemy-Aristotle. Copernican model Sun at the centre. Galileo and his observations. Galaxies-Hubble's classification - Spiral, elliptical & irregular galaxies. Milky way galaxy

Module II Cosmology (6 hours)

Origin of the universe-Big bang theory-expansion of the universe-Hubble's universe. Age of universe. Stellar evolution-birth-red giant- death of a star White dwarf- Chandrasekhar limit, Supernova, neutron star- black hole.

Module III Observational Astronomy (10 hours)

Constellations-zodiacal constellations. Astronomical distance scales-AU. Parsec and light year Stellar Parallax and distance to stars from parallax. Telescopes - Light gathering power, visual angle, angular magnification, Types of telescopes refracting and reflecting-Newtonian and Cassegrain telescopes HST, Radio telescopes. GMRT(India).

Module IV Solar System(8 hours)

The sun-solar atmosphere- Sun spots. Definition of a planet-terrestrial planets & Jovian planets. Comparison of planets. Minor members of solar system- Asteroids, comets, meteors. Universal law of gravitation, Earth's orbital motion-day to day changes-seasonal changes

Text Books:

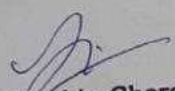

1. Architecture of the Universe, Neill H. Appel, Allen Hynek- The Benjamin Cummings publishing company, Inc.
2. Astronomy A beginner's guide to the universe sixth edition(ch-1)-Chaisson McMillan
3. Astronomy: A Self Teaching Guide-Dinah L. Moche
4. The great Universe-G.K. Sasidharan-S. Chand

REPORT ON CERTIFICATE COURSE-
OUR UNIVERSE : THE WORLD AROUND US'
2019-20

The certificate course conducted by Physics department during 2019-20 academic year was '**OUR UNIVERSE : THE WORLD AROUND US**'. The course included the study on cosmology, observational astronomy and solar system. It helped the students to know about the structure and beginning of universe and to answer the questions like what am I seeing in the sky and what are the reasons for these observations. The course commenced on 29/01/2020. 12 students from various departments attended the course. The course was taught by Ms. Sreekala U. of physics department.

As part of the course, the department conducted a class on *Telescope making* in association with *Breakthrough Science Society*. Students were given hands on training in telescope making. Night sky watching was also arranged for students as part of the course. Prof. N.Thankachan, Rtd. Prof. RIT, Pampady gave a talk on observational astronomy. Different constellations were introduced and students watched the surface of moon. After the completion of the course an exam was conducted on 28/02/2020.

Certificate Course on Child Rights and Protection Systems

2019-20

The certificate course is a crucial key to the Trainee Social Workers in various aspects. This course enabled the TSWs to have an insight about children and their problems. It also focused on understanding the child and the interest of the child in almost all the aspects of life. The laws and legislations related to children, the various schemes, and also the various aspects of a child in their holistic development were discussed in this certificate course. Thus the course was very fruitful and helpful for the trainee Social Workers. The course was intended to make the trainee social workers thorough about child protection and the recent amendments in the laws.

Certificate Course on Life skill Education

Life Skill Education classes TSW's received during the USHUS orientation and were able to practice these during the rural camp and other co curricular activities. Through those orientation sessions TSW's were able to understand the ten core life skills laid down by the WHO as well as learned to incorporate these in personal and professional life. This paper enabled the TSW's to understand the importance of life skill and realised that these skills will equip one to deal with life challenges.

The poster is for a 'Certificate Course on Life Skill Education' for 'Social Workers'. It features a blue background with a large, faint white gear-like shape in the center. The text is arranged in a structured manner, starting with the college name and logo at the top, followed by the course title in large, bold letters. Below the title, there are two columns of text: 'Course Content' and 'Course Requirement'. The 'Course Content' column lists six items: Critical Thinking, Creative Thinking, Decision Making, Problem Solving, Effective Communication, and Coping with Emotion & Stress. The 'Course Requirement' column lists two items: 80 Hr programme and Activity Oriented. At the bottom right, the 'Academic Year' is specified as 2019 - 2020.

certificateCourse: Life Skill Education for Social Workers
Report of the Academic Year 2019-2020

Life skills are a set of psychosocial competence and personal skills that help people make carefully big decisions, communicate effectively with others, develop coping skills with surrounding circumstances, and manage oneself that leads to progress and success.

The social work department of BCM college gave focus more on the developing the professional skills in students inorder to get excellent in their professional and personal life .The department provided training to 29 students for life skill through various sub programs that has been organised by the department with a time frame of 80 hours .

A one week orientation program was organised for TSW's to know in detail about the department , subject and the career opportunities .Through the rural camp we got to improve our self confidence and was able to improve the empathy within us ,that is through the community living , survey and through various group activities.

Programs such as ;International conference and social work students meet , theatre workshop and Saphalam Sayanam etc, gave us a great platform to improve and develop our coping up and communication skills that are practiced through presenting academic papers, conducting and managing various competitions and cultural programs. Various other training programs and workshops were organised to develop the overall skill development of the students . We were able to improve our creative thinking, decision making capacity, coping skills and communication, with the proper guidance from various eminent personalities from various fields.

We officially thank our department for giving us a wonderful opportunity to develop our skills through different programs whichwould help us to achieve professional excellence in our future profession.

Report of Certificate course on Java 2019-20

Certificate course on Java

Java is a general-purpose, object-oriented programming language. One of the most significant advantages of Java is its ability to move easily from one computer system to another. The ability to run the same program on many different systems is crucial to World Wide Web software, and Java succeeds at this by being platform-independent at both the source and binary levels. In view of this the Department of Computer Science offers a certificate course in JAVA in association with Logic Software Solutions Pvt. Ltd, Kottayam. Faculties from Logic Software Solutions Pvt. Ltd, Kottayam conducted the course. The duration of the course is 30 hours. Course certificate is given to the students after the successful completion of the course. Twenty three students attended the course during 2019-20.

Summary report of JAVA

2019-2020

The Department of Computer Science conducted JAVA courses with a duration of 30 hours for each course. After the course completion, an exam was conducted and students were passed with high marks and issued a certificate for course completion. The main objective of this course is to make students self dependent in computer programming and computer technology, so that students can make their career in the computer technology field.

In 2019-2020 total 23 students attended all certificate courses. An external IT expert Mr. Naveen who took classes for our students. The classes started in June and finished in July. An examination was conducted to assess the progress. All the students completed the course meritoriously and certificates were awarded to them.

The java especially for third year students to explore the power and simplicity of the java language. All the students really appreciated the contents that were discussed, they realised that interactions like these can help them improve their learning.

Objectives

- Gain knowledge about basic java language syntax and semantics to write java programs and use concepts such as variables, conditional and iterative execution methods etc.
- Understand the fundamentals of object-oriented programming in java, including defining classes, objects, invoking methods etc and exception handling mechanisms.
- Understand the principles of inheritance, packages and interfaces.

Outcomes

- Write java application programs using OOP principles and proper program structuring
- Demonstrate the concepts of polymorphism and inheritance.
- Write java programs to implement error handling techniques using exception handling.

Report of Certificate course on ASP.Net 2019-20

Certificate course on ASP.Net

In the world of web and application development, there are many frameworks and languages that developers can choose from. Each framework has features and benefits that make them different. ASP.NET is a very valuable tool for programmers and developers as it allows them to build dynamic, rich web sites and web applications using compiled languages like VB and C#. In view of this the Department of Computer Science offers a certificate course in ASP.NET in association with Logic Software Solutions Pvt. Ltd, Kottayam for the B.Sc. Computer science students. Faculties from Logic Software Solutions Pvt. Ltd, Kottayam conducted the course . The duration of the course is 30 hours. Course certificate is given to the students after the successful completion of the course. Twenty three students were there in the course during the academic year 2019-20.

Summary report of ASP.NET

2019-2020

The Department of Computer Science conducted ASP.NET with a duration of 30 hours for each course. After the course completion, an exam was conducted and students were passed with high marks and issued a certificate for course completion. The main objective of this course is to make students self dependent in computer programming and computer technology, so that students can make their career in the computer technology field.

In 2019-2020 total 23 students attended all certificate courses. An external IT expert Mr. Naveen who took classes for our students. The classes started in June and finished on July. An examination was conducted to assess the progress. All the students completed the course meritoriously and certificates were awarded to them.

Dot Net is the most demanded technology in all the industrial sectors with a wide scope in terms of job opportunities now and in the future too. This course will provide students with the tools and techniques to build dynamic Web sites using the ASP.Net programming environment. Students gain hands-on experience building a database-driven Web site. ASP.NET is a server-side scripting language introduced by Microsoft for building dynamic web pages. To learn the Dot NET, there are certain steps that need to be covered and understood with adequate details.

Learning Outcomes:

- Understand the Microsoft .NET Framework and ASP.NET page structure
- Design web application with variety of controls
- Access the data using inbuilt data access tools
- Use Microsoft ADO.NET to access data in web Application
- Configure and deploy Web Application
- Develop secured web application

Report of Certificate course on Computer Hardware Maintenance 2019-20

Certificate course on Computer Hardware Maintenance

Maintenance of computer hardware is a way of taking care, repairing and replacing broken and failing computer hardware. Maintenance is necessary on computers to avoid hardware failure or losing valuable information and most times, hardware breaks without notice. Excess heat accelerates the deterioration of the delicate circuits in the system. In view of this the Department of Computer Science offers a certificate course on Computer Hardware Maintenance in association with Logic Software Solutions Pvt. Ltd, Kottayam. Faculties from Logic Software Solutions Pvt. Ltd, Kottayam conducted the course . The duration of the course is 30 hours. Course certificate is given to the students after the successful completion of the course. Seventeen students attended the course during 2019-20.

Summary Report of Certificate course on Computer Hardware Maintenance 2019 - 2020

BISHOP CHULAPARAMBIL MEMORIAL COLLEGE, KOTTAYAM
DEPARTMENT OF COMPUTER SCIENCE
Summary report of Computer Hardware Maintenance

2019-2020

The Department of Computer Science conducted hardware courses with a duration of 30 hours for each course. After the course completion, an exam was conducted and students were passed with high marks and issued a certificate for course completion. The main objective of this course is to train the students to acquire knowledge in PC Hardware, Software and the field of Networking. The Students will understood and gain knowledge in the basics of PC assembling and network

In 2019-2020 total 17 students attended all certificate courses. An external IT expert Mr. Naveen who took classes for our students. The classes started in October and finished in November. An examination was conducted to assess the progress. All the students completed the course meritoriously and certificates were awarded to them.

This course is an exploratory, first course in computer hardware systems and maintenance designed primarily for students in computer science. However, it also meets the needs of students in other fields, as a course that provides hands-on training in the installation, configuration, optimization and upgrading of computer systems. As a practical course, the focus is to impart useful skills on the students in order to enhance their ability to install, troubleshoot, repair and maintain computer systems. Topics to be covered include introduction to computer systems, computer system parts, maintenance techniques, approaches and tools; diagnostic techniques; system assembly and installation; troubleshooting and repair of computer systems and accessories; portable computers, etc

Objective of the Course:

To train the officials to acquire basic knowledge in computer hardware and peripherals for installation, PC assembly, troubleshooting and maintenance including system management and its backup and to undertake disaster prevention.

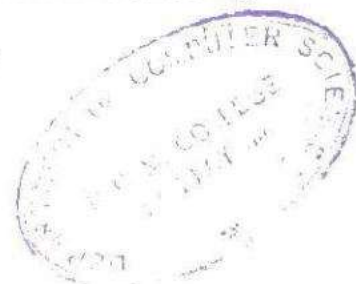

Learning Outcomes:

The student will be able to know the basics of Computer assembling and troubleshooting. This course will provide a brief knowledge of Computer networking and troubleshooting.

Report of Certificate course on PHP

2019-20

Certificate course on PHP

These days, to develop or create a website is a priority to your business on the internet. The designing and development are the two most promising steps which are crucial. PHP programming language is most widely used for website and web application development. It is a general purpose, server-side scripting language which runs on a web server and which is designed for making dynamic pages and applications. One of the major benefits of PHP is that it is platform independent, meaning it can be used on Mac OS, Windows, Linux and supports most web browsers. It also supports all the major web servers, making it easy to deploy on different systems and platforms at minimal additional cost. The open-source tools and high running speed make PHP one of the most preferred languages for creating interactive websites and web applications. As the market for PHP increases, businesses are looking for new PHP web development trends to develop a perfect web app. In view of this the Department of Computer Science offers a Certificate programme on PHP for the students to give an awareness about web designing using PHP. It is a thirty hour duration course and this course is offered in association with Logic Software solutions private limited, Kottayam. Twenty three students attended the course during the academic year 2019-20.

Summary report of PHP

2019-2020

The Department of Computer Science conducted PHP courses with a duration of 30 hours for each course. After the course completion, an exam was conducted and students were passed with high marks and issued a certificate for course completion. The main objective of this course is to make students self dependent in computer programming and computer technology, so that students can make their career in the computer technology field.

In 2019-2020 total 23 students attended all certificate courses. An external IT expert Mr. Naveen who took classes for our students. The classes started in January and finished on february. An examination was conducted to assess the progress. All the students completed the course meritoriously and certificates were awarded to them.

Objective of the Course:

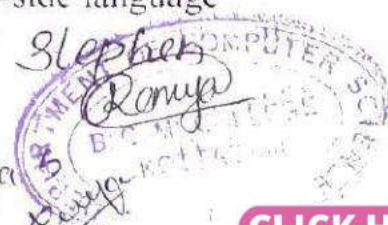

To provide the necessary knowledge to design and develop dynamic, database-driven web applications using PHP version 5. Students will learn how to connect to any ODBC-compliant database, and perform hands-on practice with a MySQL database to create database-driven HTML forms and reports etc. Students also learn how to configure PHP and Apache Web Server. Comprehensive lab exercises provide facilitated hands-on practice crucial to develop competence web sites.

Learning Outcomes:

- Build HTML-based mobile app
- All PHP Fundamentals and Building Blocks with practical implementation in Projects
- The students get hands-on experience of how things happen in PHP?
- The students can be able to understand the concepts of client and server
- The students are able to perform form handling using PHP.
- Be proficient with databases and server-side language

Certificate course on Ubuntu

With a built-in firewall and virus protection software, Ubuntu is one of the most secure operating systems around the world. The open source Ubuntu desktop operating system powers millions of PCs and laptops around the world. Ubuntu comes with everything you need to run your organisation, school, home or enterprise. There are many reasons to use Ubuntu Linux that make it a worthy Linux distro. Apart from being free and open source, it's highly customizable and has a Software Centre full of apps. The Department of Computer science offers the certificate course on Ubuntu. This course is of thirty hour duration. Twenty three Students participated in this course during the year 2019-20.

Summary report of UBUNTU

2019-2020

The Department of Computer Science conducted UBUNTU courses with a duration of 30 hours for each course. After the course completion, an exam was conducted and students were passed with high marks and issued a certificate for course completion. The main objective of this course is to make students self dependent in computer programming and computer technology, so that students can make their career in the computer technology field.

In 2019-2020 total 23 students attended all certificate courses. An external IT expert Mr. Naveen who took classes for our students. The classes started in January and finished in February. An examination was conducted to assess the progress. All the students completed the course meritoriously and certificates were awarded to them.

This course introduces the student to the Linux Operating system with particular emphasis on command line tools, utilities and shell scripting. The student will learn and apply the various commands and utilities related to file system management, process management, program development and data processing. In addition the student will learn about shell concepts and become proficient in the use of shell features such as command line editing and learn and apply Unix concepts such as pipes and filters.

On completion of this course the student should be able to:

- Identify and use UNIX/Linux utilities to create and manage simple file processing operations, organise directory structures with appropriate security, and develop shell scripts to perform more complex tasks.
- Effectively use the UNIX/Linux system to accomplish typical personal, office, technical, and software development tasks.
- Monitor system performance and network activities.
- Effectively use software development tools including libraries, preprocessors, compilers, linkers, and make files.
- Comprehend technical documentation, prepare simple readable user documentation and adhere to style guidelines.
- Collaborate in teams on system tasks.

Report of Certificate Course on Surface Ornamentation Techniques 2019-20

Certificate Course on Surface Ornamentation Techniques

Learning surface ornamentation techniques can help you create exquisite designs. It is one of the best ways to express your love for art. Surface ornamentation adds immense beauty and enhances the look of a garment. The main idea of fabric decoration is to add an element of interest. The most common materials used for surface ornamentation are mirrors, beads, sequins, threads, wires, buttons, etc. Surface ornamentation is a skill. It has been practised in India since centuries. Every region in India is known for its own style of surface ornamentation. For example, Gujarat and Rajasthan are known for mirror work, Punjab is known for phulkari embroidery and so on. In view of this the Department of Family and Community Science organised a certificate course on Surface ornamentation Techniques.

The brochure cover features a dark green background with a gold border. At the top left is the Bishop Chulaparambil Memorial College logo, which includes a shield with a cross and a banner below it. To the right of the logo, the college name is written in bold, gold, uppercase letters. Below the college name, the text 'A CERTIFICATE COURSE on Surface Ornamentation Techniques' is displayed in a mix of gold and white fonts. Underneath, it says 'By Department of Family and Community Science' in a white, italicized font. Three circular images of embroidered flowers are arranged horizontally. Below these, the word 'OBJECTIVES' is written in gold, followed by two lines of white text describing the course goals. At the bottom, 'ACADEMIC YEAR 2019-20' is written in gold.

Summary Report of Certificate course on Surface Ornamentation Techniques 2019- 20

Summary Report (2019-2020)
Surface ornamentation Technics
(Family and Community Science)

Fabric embellishments are the ornamentation that normally added to fabrics to make them more beautiful and gorgeous, because of the nature of decorative patterns, which they create. Different kinds of surface design techniques are used for embellishing the fabric. Most common materials that can be used for this process include fringe, boutiques, beads, and buttons. In addition to the multitude of construction and finishing techniques used, the fabric can also be worked upon or embellished in a variety of ways to enhance its surface. Most embellishing methods, such as embroidery, quilting, applique and bead-work are age-old techniques of decorating fabric and are still largely executed by hand. A specialized industrial sector in trimmings, lacework, embroidery and other embellishments has also developed that uses innovative technology to recreate the hand-worked effects on an industrial scale and pace.

Thirty hours of certificate course classes started on 03/01/2020 and came to an end by 27/02/2020 with the exam. A total of 186 students were participated in this year and they are showing fond with embroidery designs and patterns. Students were successfully completed the course and secured good results.

CERTIFICATE COURSE IN TALLY 2019-20

DEPARTMENT OF COMMERCE

Tally is a complete enterprise resource planning software for business accounting and Inventory management. TALLY is being widely used by almost all the MSME's and in some of the multi national companies in India for its accounting purpose. It is being used in almost 100 countries of the world after changing the specifications as per the existing laws of the nation. But generally, tally software being used across the world is similar. It provides various facilities like multilingual operations, inventory management and processing for small medium and big business houses. Data migration, payroll management, TCS , TCS, job costing, and point of sale invoicing are easily handled by the accountants with the help of tally. Softwares like tally helps to manage the processing of data with accuracy and efficiency. There is also a big need to reduce the paper work at offices. Altogether Tally is a job oriented course which can add feather to the skill sets of the student qualifications to get them placed easily.

With these things in mind, this course designed by the department of commerce of BCM College covers the accounting concepts and skills at the basic level for those who have a plus two qualification with the basic computer knowledge.

After completion of the course, learners will be able to maintain all the financial accounting records of an organization. Inventory management is also done at ease. A certificate course in tally will equip the student to become an accountant, account assistant, auditor, tally operator or as a data entry operator. This certificate course will also help those who opt to start a business after their graduation since they can do the management of their organisation accounts by self without the need for an accountant or manager having knowledge in tally. The course was conducted between 03-02-2020 to 28-02-2020. Since there was heavy demand for the certificate course in tally, an assessment was done as an evaluation to identify those who have an aptitude for the course. Thereafter, 151 students from various disciplines were selected for the course and were given 30 hours of theoretical training with the help of ICT and 15 hours of practical sessions. Those who have attended the course and were very much happy with the content provided. Though the certificate course was conducted only for 30 hours it provided a working level knowledge about Tally. Apart from the practical sessions in the presence of teacher, students were also permitted entry to the computer lab on all working days and Saturdays of their choice to practice what they have learned in Tally classrooms. They were also encouraged to ask questions.

After completion of the course, learners were asked to finalize the accounts of an imaginary organization from journalizing to report generation. And almost everyone who has attended the course could complete the accounting process of the imaginary organization by themselves. Though it was scheduled to hold the certificate course in tally twice during the year in the months of November and May, The course could be conducted only once during the academic year due to the spread of COVID pandemic during the month of May. Smt. Chinnumol Sasindran was the faculty in charge of the certificate course in Tally.

CERTIFICATE COURSE ON INTRODUCTORY MATHEMATICS FOR COMPETITIVE EXAMS

The Department of Mathematics offers a certificate course in Mathematics for Competitive Exams. This course was intended to provide a foundation of knowledge in fundamental concepts of Mathematics related to competitive exams. Solving previous year question papers of Bank test, SSC exams, PSC exams was also part of this certificate course. The main aim of our course is to provide a fundamental mathematical aptitude for students and to make the students attend various competitive exams confidently.

A poster for a certificate course. At the top, there is a logo for BCM (Bishop Chulaparambil Memorial College Kottayam) with the text 'NAAC ACCREDITED WITH A GRADE'. Below the logo, the text 'Department of Mathematics' is written in a serif font. Underneath that, 'CIRTFIFICATE COURSE:' is written in a bold, sans-serif font, followed by '2019-2020' in the same font. The main title 'Introductory Mathematics for competitive exams' is written in a large, cursive, purple font. At the bottom, the text 'ALL ARE WELCOME' is written in a bold, sans-serif font. The background of the poster features abstract watercolor-style brushstrokes in shades of orange, pink, and grey.

ADD ON COURSE DETAILS

ADM01 : - Introductory Mathematics for Competitive Exams

Objectives

- To make the students aware that the Mathematics for competitive examinations are easy and solvable.
- Enable the student to understand the Math related problems in competitive examinations.
- Acquire knowledge to solve various types of Math Related problems.
- Identify patterns and come up with their own methods to solve the Math Related problem.
- Enable Students to solve Math Problems within specific Time Frame (Speedy Calculations)

Course Structure

- The course consist of 30 hours of lecture and 30 hours of problem solving/assignments within a span of 6 months.
- There will be an exam at the end of the course, the exam consist of 75 questions(50 MCQ, 25 Fill in the Blanks) with a time limit of 90 Minutes with each question carry one marks .

SYLLABUS

Unit 1 : Numerical Techniques (8 Hours)

Numbers, Arithmetic Operations , Different Types of Numbers.

Progression and Sequence : A brief introduction to Arithmetic and Geometric Progression and Techniques to find the general term, sum etc

Quadratic Surds: Simple Methods to find squares square roots and cube roots Quickly. The General Idea of and their properties.

Ratio and proportion, Math Identities

LCM and HCF : Simple Methods to find the LCM and HCF and relationship connecting LCM and HCF

Unit 2 : Logic, Reasoning , Aptitude (14 Hours)

Time and Work and Wages , Problem of Ages, Problem of Speed and Distance

Blood Relations, Embedded Figures, Coding and Decoding,

Pattern Completion, Counting of Figures, Calender Problems, Directions

Data Interpretation : Pie Diagrams, Line Graphs, Mixed Graphs etc

Unit 3 : Mensuration & Monetary Problems (8 Hours)

Length ,Area ,Surface Area, Volume, Height

Simple interest, Compound Interest, Profit and Loss, Average, Probability, Percentage

INTRODUCTORY MATHEMATICS FOR COMPETITIVE EXAMINATIONS

Summary Report 2019-20

The Department of Mathematics offers a certificate course "Introductory Mathematics for Competitive Exams". This course was intended to provide foundation knowledge in fundamental concepts of Mathematics related to competitive exams. The main aim of our course is to provide an fundamental mathematical aptitude for students and to make the students attend various competitive exams confidently. In this course we offered classes based on tricks and easy methods in Mathematics for facing the competitive exams.

This programme is of 30 hours duration comprising 15 hour's theory classes and 15 problem solving session. During this year, around 100 students from various departments of our college participated in this course. Mr.Liju Alex was the teacher in charge of this course. The course started on 29/01/2020 and ended on 3/3/2020 during the academic year 2019-2020.

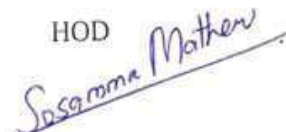

This year Mr. Liju Alex took the introductory session followed by another 30 lecture and problem solving sessions which were monitored by our alumni our alumni Ms. Soni Biju. We conducted periodic test papers and group discussions to increase the problem solving skill and logical reasoning. We conducted a course exam on 20th March 2020. All the students attended the exams. Those who cleared it with more than 80% of students secured A grade.

The course started on 29/01/2020 and ended on 3/3/2020 during the academic year 2019-2020.

Course outcome

The outcome of this course is to make student able to solve mathematics problems within short time and to make them to be more enthusiastic in learning Mathematics. Through this course students get an idea on how to handle the Mathematics problems in competitive exams and to get trips to improve the speed in problem solving. At the end of this curriculum the students were able to solve more logical problems within the time with great pleasure.

Summary Report

2019-2020

The certificate course Radio and New Media Writing provided by the English department aimed at enabling its learners to adequately write and present news by abiding to the rules of media writing. In order to do so the students were primarily introduced to the history of Indian Broadcasting radio and to the basic governing rules of writing. Further they were given lectures on the various modes of presentation that can be done on radio, the criterion for each of those forms and the various principles that are needed to be followed while doing Spoken word Programmes, Music Programmes, Radio Interviews, Documentaries and so on. They were also made aware of the advantages of Radio Broadcasting as well. The students were also made aware of the fact that radios are used in different arenas, starting from communal radio to satellite and educational radio.

The second module of the course introduced the learners to the new media, internet and how it could be used as a potential media. By the end of the course, the students were made aware of the guidelines by which they could Plan, Structure and Style whatever they wrote. They were also given lectures on the various possibilities of the internet. They were made aware of the opportunities in the technical writing field. They were also taught about the usage and purpose of blogs, how to create them and maintain them as well. At the end of the course they could compose matter for radio programmes and compare, provide catchy captions for photos, and function like editors.

28 students enrolled for this course and successfully completed it. The classes were dealt by Ms. Aneha Hepzibah Solomon and Ms. Sona Saira Tharian.

Certificate course on Life Skill Management

Life management is the ability to handle everything you need to in order to live a productive, happy and fulfilling life. Life management is about transforming your mindset so you can handle stress, master your emotions and take control of your life. In everyday life, the development of life skills helps students to:

- Find new ways of thinking and problem solving
- Recognise the impact of their actions and teaches them to take responsibility for what they do rather than blame others
- Build confidence both in spoken skills and for group collaboration and cooperation
- Analyse options, make decisions and understand why they make certain choices outside the classroom
- Develop a greater sense of self-awareness and appreciation for others

Upholding this the Department of Zoology offers a certificate programme on Life skill management for the undergraduate students. The students were trained on time management, resume writing, stress management etc. 29 students were enrolled and all of them qualified the course.

DEPARTMENT OF ZOOLOGY

2019-2020

CERTIFICATE COURSE: LIFE SKILL MANAGEMENT

The course in Life Skill Management, offered by the Department of Zoology imparts basic life skills needed for students for their daily life as well as professional achievement. The course included training sessions by experts in the area of life skills. Students were trained in interpersonal and communication skills. This broadly encompasses the abilities required to get along with and collaborate with others, notably the ability to send and receive written and vocal messages. Problem-solving and decision-making abilities required to comprehend problems, identify answers, and to act on them.

Sessions were conducted on critical and creative thinking to think about problems in unique and unexpected ways in order to develop new answers or generate new ideas, as well as the ability to carefully examine information and grasp its relevance. Mock viva and interview session were held to simulate real life experience. Dr. Nelson Abraham, retired Professor of St, Thomas College Kozhanchery and a motivational speaker and a soft skill trainer of the NGO 'Wings to Win' trained students on soft skills.

Students were also given class on first aid in medical emergency. The sessions were handled by medical professional. They were also given classes on lab safety procedures. Twenty nine students were enrolled in the course and all the students completed the course.

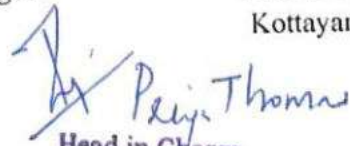

The students were able to perform well in the in class presentations/seminar. The course has helped them to perform well in the interviews for placement and higher education.

Details of Certificate Course in Research Methodology and Data Analysis

Certificate Course in Research Methodology and Data Analysis

With the introduction of Project work with the UG curriculum, every student has to study some real-life problem and submit a scientific report at the end of their UG programme for successful completion. Before performing any such study, it is inevitable to have an introduction to the Scientific procedure for identifying and dealing with real-life problems. Many of these studies are quantitative. Statistical analysis has become an integral part of any study. While dealing with large data sets or exploiting recent statistical tools, it is tedious or sometimes impossible to do statistical analysis manually. Thorough knowledge of Statistical tools and software has become inevitable in the current research and decision-making process. There are many software available with statistical tools; some are proprietary and some are Free software. Most of the studies in the UG programme involve only essential Statistical tools.

The Certificate course is intended to provide you with the basics of Research Methodology and an introduction to Statistical software through PSPP, one available accessible under GNU. PSPP has many similarities with the statistical software SPSS, but PSPP is free. One of the significant challenges for anyone to master SPSS is the lack of knowledge about how we could enter the data in SPSS format. PSPP has the same data entry format and procedures as SPSS. Hence those familiar with data entry in PSPP can handle data entry in SPSS. Hence with experience in PSPP, one can master SPSS.

Course Objectives

- Distinguish between Quantitative and Qualitative Research
- Execute sampling procedures like Simple Random Sampling, Stratified Sampling and Non Probability sampling procedures, Judgement sampling, convenience sampling, purposive sampling in quantitative research.
- Execute descriptive statistics procedures like Frequency table, cross table in data
- Implement inferential statistics procedures like t-test, chi-square test, ANOVA in PSPP

A thorough knowledge in Statistical tools and softwares has become inevitable in the current research and decision making process. There are many softwares available with statistical tools some are proprietary and some are Free softwares. Most of the studies in the UG programme involves only basic Statistical tools only.

The Certificate course is intended to provide you the basics of Research Methodology and to provide introduction to Statistical softwares through PSPP, one available free under GNU.

**CERTIFICATE COURSE ON
RESEARCH METHODOLOGY WITH
SPECIAL FOCUS ON DATA
ANALYSIS USING PSPP
2019-20**

Offered by

*International Quality
Assurance Cell
(IQAC)*

Syllabus:

Introduction – Probability and non probability samplings - Simple Random Sampling, Stratified Sampling and Non Probability sampling procedures Judgement sampling, convenience sampling, purposive sampling in quantitative research

Introduction to PSPP - Type of Scale of Measurements, Choosing appropriate scale and measurement to the data Getting to Know PSPP: Starting PSPP, Working with data file, SPSS windows, Menus, Dialogue boxes.

Preparing the Data file: Creating data file and entering data, Defining the variables, Entering data, modifying data file, import file.

Preliminary Analysis- Descriptive statistics: Categorical variables, continuous variables.

Relationship Between variables : Correlation Coefficients – Pearson and Spearman- Scatter plot

Comparison of Means: Inferential Statistics : One sample and two Independent sample t test, Paired sample t test, One way Analysis of variance, Two way ANOVA, Independent Chi square Test, Mann-Whitney test , Wilcoxon signed rank test, Kruskal- Wallis test.

Methodology:

Highly interactive session including practical examples and exercises.

Data to be used:

employeedata.sav

Assesment Procedure:

Students are evaluated using continuous evaluation and end semester examination which will be merged in the ratio 6:4. End semester examination consist of multiple choice questions covering the portions on sampling and types of research. Continuous evaluation is based on assignment – analysing data.

Students are graded based on the marks as follows

Grade	No. of Students
A+	90% Marks or above
A	Between 80% and 90%
B+	Between 70% and 80%
B	Between 60% and 70%
C	Between 50% and 60%
D	Failed

Summary Report of Certificate Course in Research Methodology and Data Analysis

Summary Report for the Year 2019-20

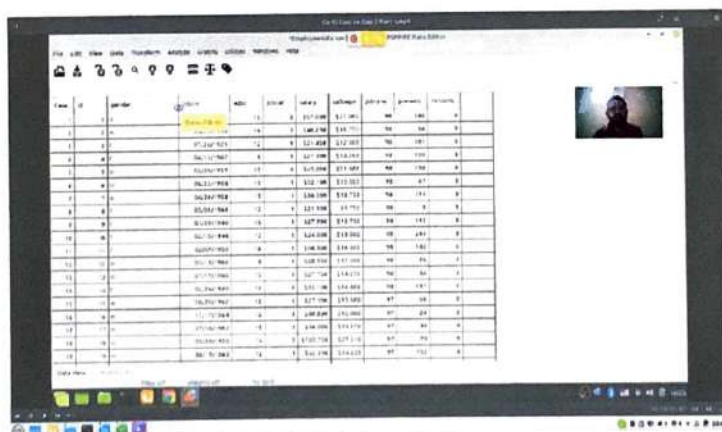

The certificate programme started on 29th January 2020 with 39 students. The resource persons for the course include

Dr. Ipe Varghese – Head, Department of Social Work. He has completed one PhD and pursuing the second one. He has been handling the research methodology course for the MSW programme for the past 14 years. In addition to this he has been in the panel of experts for research methodology of Kerala Association of Professional Social Workers (KAPS). He is the chief editor of the research journal - educere

Dr. Reeja PS – Assistant Professor in Sociology. She completed her PhD under the guidance of Prof. (Dr.) Jacob John Kattakayam. She was the recipient for various awards for researchers instituted by Sociological Societies and Associations. Very energetic and passionate researcher.

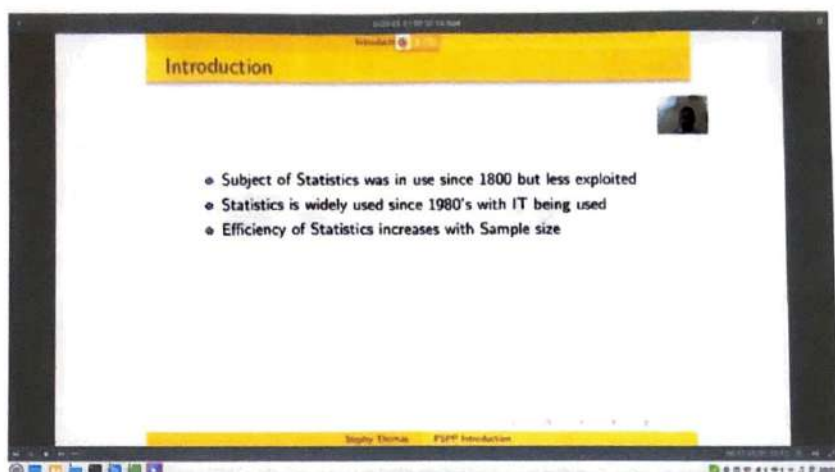

Dr. Stephy Thomas – Assistant Professor in Statistics. Very fluent in statistical softwares like SPSS, PSPP, R. A person with more than 10 years of experience.

Last year as the number of students was too large, it was not easy to handle classes. Hence the admission to the programme was restricted to first 40 candidates. Due to lock down only 9 Hours were taken as offline and remaining portions were completed online in 28 hours.

Dr. Ipe Varghese handled 6 Hours on the sampling techniques. Dr. Reeja P S covered portions on various type of research, quantitative and qualitative research. Practical sessions were handled by Dr. Stephy Thomas using PSPP. Famous employee data was used to illustrate all the results. All the sixty nine students completed the course. The grades secured by students is summarised in the following table.
