

BCM SCHOLARSHIP CELL

Ambitious dreams foster determination, discipline and devotion in young to embrace success. Success follows those who believe and focus on their goals in every step. Aiming at integral personalized education, BCM College thrives on inspiring each student to dream big and go for it.

The College instituted a scholarship cell with the vision of supporting BCMites to pursue their dreams irrespective of socio-economic backgrounds. The Scholarship cell takes initiatives to avail various avenues for financial help, including scholarships, freeships and prizes to needy students. These incentives would certainly boost their confidence, help them stay focused on their academics and keep their dreams alive.

IT'S NEVER TOO
LATE TO FOCUS
ON YOUR
DREAMS

BCM Scholarship cell has a **3-tier** working style; **Core group, Tutors wing & students wing**. The principal, teachers in charge of the scholarship cell, a representative from the college office and a student representative constitute the core group. Tutors' wing and students' wing Consists of all the class tutors and the student representatives from all classes, respectively.

The core group collects information on all the available scholarships and freeships for students and conveys it to the two wings. This pattern helps tutors motivate each student to apply for scholarships at the right time. Peer support also is assured through the students' wing.

BCM scholarship cell frames an efficient network for disseminating individual attention, financial support & encouragement to each student.
