Brochure

Language is not only for communication; it is a tool to understand history and culture. India, as a picture of unity in diversity, can be best seen in her rich diversified culture and heritage. This rich and diversified culture is due to the large number of languages and dialects. Hindi is the national and official language of India. Compared to other South Indian states, the learning of Hindi in Kerala educational system is very progressive and popular. The number of students who select Hindi as second language at the college level is very high. A cultural program “Hindi Munch” is conducted for the students once in a month. The main objective of this program is to develop communication skills of students in Hindi. and also to give opportunity
