LETTER OF ASSOCIATION

We are happy to associate with the Dept. of Physics, BCM College Kottayam, in starting a science forum. We have associated ourselves in many programmes since 2005, the International Year of Physics. In our opinion, the forum should be able to inculcate in our students an appreciation for the dedicated, hard work done by the pioneers of science in bringing about the current scenario in science. Science was instrumental in bringing about the huge development in knowledge by providing a scientific method for learning and research. Hence we should be able to organise programmes to assimilate the kernel of scientific method. We should encourage the students to stand by the peaceful use of S&T. The science forum should be able to impart in students an inspiration for science and alleviate the unscientific practices.

Prof. P.V. THANKACHAN
(SECRETARY)
